Thank you so much for your feedback,
it literally means the world to ya girl.

STFU

Ou girl sometimes you gotta just stfu,
get it in silence and let your life speak for itself.

When you got something special and everybody can see it...
Everybody can feel it but nobody knows what it really is bc
you moving in silence, mfs start tryna study you.

They don't wanna see you win like that, not bc they don't
duck with you like that. They just can't see themself winning
so then who tf is you when y'all come from the same place?

Conviction in a way bc you reflect what they could've been.

Sometimes you just gotta stfu, bc you somebodies lifeline
and you not even secure on the raft yet. You better go get
yo spot before a mfa tryn destiny swap witcho lol.

Sometimes you gotta stfu, mfa be jealous man. They wanna
stunt your growth bc who tf is you living your life like you
do... with purpose when y'all come from the place?

Cuz see they looking at you like a cancer. Like a single cell
hijackin' their reality. Everybody see yo light. That light God
gave you before your mother gave birth to you.

Everybody see how special you are, how different you are.
That's bc your life bout to fall into place in a place of chaos.

But they think you the cancer lol? They'll never say it but
they want you to get in and fit tf in. They don't wanna see
you grow. They want you in proximity with nowhere to go.

Follow your light. Don't give up. Just stfu on the way to
wherever you're going. *Nov 11th 2026 at 11:34pm*

LOVE BUG

1

I've been a love bug all my life but nobody ever wanted my ass unless they just wanted my ass lol.

It's refreshing...

Having someone in my life who sees me as I am.

Someone who sees me for my heart, my smile and my pain.

That's what it's like with my Noah Bear, he's the only person I know who really sees me, as much as he do love this lil ass lol.

There's always this silent inner battle between us tho.

Like is it the enemy tryna divid us bc we're a match made in heaven? Or does God got other plans?

We're the total opposites, it makes no sense how we work. We're like yin and yan, it makes perfect sense how we work bc every area of opportunity of growth for us as individuals, we find the other is our best teacher.

I'm just so in the wind, without an anchor I'd be in space. Matter fact my Noah bear once told me I was the wind.

My Noah bear so grounded, I guess being a Taurus will do that to you lol. He be making sound minded, safe, secure decision and I be tryna move on faith. But that thinking had ya girl stranded on an island so I need him lol.

You know I spend most of my day dreaming of my future, how wild and full of freedom it could be.

How unlike the generations before us our babies could be.

I ride and risk it all for the family we'll create together. He rides and risk it all for the family he was born into.

He was born into the hood but not of it...

LOVE BUG

He really a stand up, no saggin', sweetie pie with a whole collection of ties but when your born to a hood made widow, seems like yo life set for you.

He tries tho but even my dreams of raising babies on a beach with fresh air, fresh fruits and wide skies seems to be more than a dream, it's almost a sick joke bc black folks like us don't even live like that in the movies... but I try.

Fighting eachother every step of the way bc I feel like he stuck in the past but I'm tryna build a future.

He been in his mama house for 30yrs.
Never moved.
Never seen life outside the house he was born into.

He just don't know what he missing.
He don't know what freedom taste like.

The matrix will do that to you
but I love him and I'm tryna set my man free.

Huh... I've left so many ppl behind.
Socially packing light to move faster and further at a time and it's been working till now.

This is what love looks like.

Love is patient. Love is kind. Love does not envy.
Love isn't just a feeling but it's something you choose to do,
a love bug like me know that first hand lol.

We different but our love for eachother the same and that's all that matters rn, we'll make it where we're going.
