

WAYW

What Are You Worth

The WAYW program has been delivered to over 1,600 language service professionals over the past 15 years. The program is suitable for all levels of interpreters from final year students and early career to the very experienced. It has been designed to meet the needs of (mainly) freelance sign language interpreters to develop, grow and deliver viable and sustainable interpreting services for the long term. The program evolves and is updated to reflect the ever-changing business, political, economic, and social challenges faced.

Join us on the 20th September 2025 at the Cotton Court Business Centre, Preston to explore how to develop your business confidence for 2025!
