Let's *connect!*

Thank you for downloading this freebie! I'm so grateful you chose my materials for your classroom!

If you have any questions or run into any issues using this resource, please email me at lessonsforlittleones@gmail.com. I'm always happy to help!

With 22 years of classroom experience, my heart has always been in helping young learners enjoy school and develop a love of learning during their very first classroom experiences. I love supporting teachers as they build strong foundations while keeping learning fun, engaging, and realistic for their classrooms.

I create hands-on, classroom-tested resources designed to reach students at all ability levels and make learning meaningful, enjoyable, and developmentally appropriate. My goal is to help teachers feel confident and supported while helping students feel successful, curious, and excited about learning. I'm honored you chose my materials for your classroom!

Candy Hearts Bump

Materials Needed:

Candy hearts for each player (valentine erasers, or other valentine markers that can be stacked can be used)

Dice

Candy Hearts Bump sheet (page II)

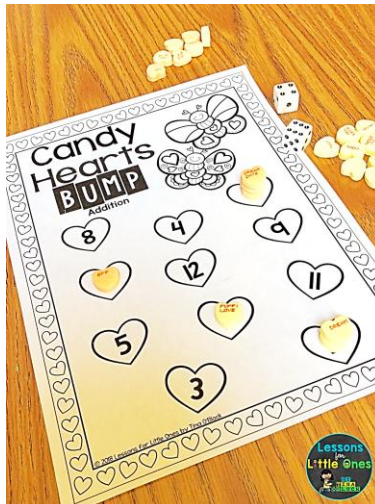

How to play:

This game is played in pairs.

Players take turns rolling 2 dice, adding the numbers, and placing their marker on the correct heart.

If an opponent's marker is already on the heart, the player can "bump" them off and put their marker on it. If their own marker is already on the bone, they can lock that number by stacking another one of their markers on the first one (players can stack as many of their own markers on a number as needed, for example if they get a 4 and already have 2 markers on it they can add a third or fourth or fifth, etc.). When a heart is locked it can not be bumped off; therefore, if your opponent already has your answer blocked with 2 or more markers you lose your turn.

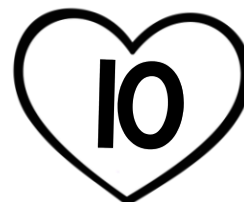

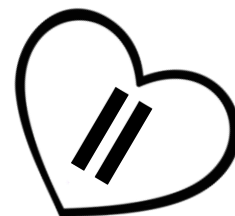

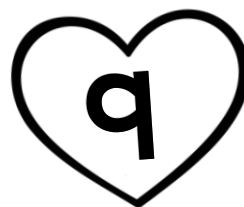

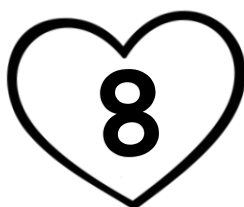

The game is over when one player has played all of their markers and wins the game.

Candy Hearts

BUMP

Addition

Candy Hearts Cover Up

Materials Needed:

Candy hearts or other markers

Dice

Candy Hearts Cover Up sheet (page 13)

How to play:

This game can be played in pairs or small groups.

Players take turns rolling a die, counting the dots, and placing the correct number of candy hearts on their page.

To win, a player has to fill their ten frames BUT they have to have the exact amount at the end to win the game (great practice with more or less!).
