A Coloring Book that turns screen time into together-time

Danny Hussyn

Kids have two modes today

SCREENS

Endless, passive, and hard to pull them away from.

COLORING BOOKS

Screen-free, but the same 20 pages every time.

Neither one builds real curiosity together, on purpose.

ULUGULU COLOR BOOK

Does more than both!

1

50 AI Quests

Every page unlocks a guided prompt kids do with a grown-up.

2

50 Original Characters

A whole cast to color, not a generic template.

3

7 Brain Development Modules

Imagine, Discover, Connect, Care, Think, Create, Explore.

Why it works

FOR KIDS: A hands-on quest that feels like play, not homework.

FOR PARENTS: An easy, screen-light way to connect and co-create with your child.

FOR TEACHERS: A ready-made resource that introduces real-world tech and tracks brain development.

FOR SOCIETY: Kids who learn to create together stay connected with teachers and family, grow fluent in socio-virtual life, and become promising good citizens.

Why is it more than a **COLORING BOOK?**

- It is a 125-page Coloring Book, bigger than the available size on the market
- 12 books, 12 Creative AI Pathways
- Versatile Result-Driven Stories
- Do It Yourself Character Creation
- AI Curiosity and Live Experience
- Friends and Family Engagement
- Brain Development Module
- Socio-virtual Being, Connecting Real Life and Virtual World

Seven Brain Development Modules

1. IMAGINE

- strengthens creativity and abstract thinking

2. DISCOVER

- encourages curiosity and research habits

3. CONNECT

- develops communication and empathy

4. CARE

- nurtures responsibility toward people and animals

5. THINK

- improves reasoning and problem-solving

6. CREATE

- transforms ideas into tangible projects

7. Explore

- expands awareness of the wider world

Creative Wellness for All

For Students (Age 10+)	For Youth Rehabilitation Centers
For Teachers and Educators	Mental Health Clinics
For Working Parents	For Libraries and Literacy Programs
For Quality Education Institutions	For Women Entrepreneurs
For Special Needs Children	For Quality Book Suppliers
For Senior Activity Homes	For Children's Club
For Day Care Centers	For Refugee and Shelter Programs

Why are 12 Books a Must? For 12 different AI specializations

DANNY HUSSYN'S COLOR BOOK SERIES (12 Books)

1. Goofy Guys

7. Doodle Devils

2. Puffy Pals

8. Buzz Buddies

3. Huffy Hicks

9. Alpha Amigos

4. Monkey Minds

10. Lazy League

5. Funky Folks

11. Savvy Singers

6. Cuddly Cutes

12. Rowdy Rascals

We have designed 12 books covering 12 different AI specializations. One book focuses on image generation, another on music creation, another on video generation, and so on. We are presenting this journey as a treasure hunt for young explorers, where each book unlocks a new AI skill and discovery
