CYBERKind

Empowering school communities through SEL education against cyberbullying

The CyberKind project aims to:

- Provide a platform for exchange to tackle cyberbullying in a whole-school manner.
- Develop a learning programme for schools that promotes SEL education and includes peer-to-peer tools and activities for school pupils.
- Offer training, guidance and supporting materials for schools so they can develop policies and actions against cyberbullying.
- Explore innovative models to involve a wider range of stakeholders in a whole-school approach to tackle cyberbullying and promote well-being in the digital world.
