From Katrina Q. Porter

My true story of faith, fight, and survival
through Stage 2 HER2-positive breast cancer.

A Note From Katrina

Hey Family,

I did not plan to write this book. Cancer made the decision for me.

When I heard the words "Stage 2 HER2-positive breast cancer," my world stopped. I was scared. I was angry. I had questions that had no answers. Somewhere in the middle of the fight, I picked up my pen. I wrote through the tears, the treatments, and the nights I did not think I would make it.

"That Bitch Tried To Kill Me" is my true story. It is raw. It is real. It is unfiltered. It is about faith when faith feels impossible. It is about fighting when your body wants to quit. It is about surviving and finding purpose on the other side.

I wrote it for the woman who just got the call. I wrote it for the woman sitting in the waiting room right now. I wrote it for every warrior who needs to know she is not alone.

If my story can carry one woman through her darkest night, every word was worth it.

With love,
Katrina Q. Porter
