CERTIFIED INTENTIONAL PEER SUPPORT CODE OF ETHICS FORUM

Share your thoughts on Maine's Certified Intentional Peer Support Specialist Ethical Standards

Those who care about the Certified Intentional Peer Support Community are invited to provide recommendations for a draft Code of Ethics to guide the practice of Maine's Certified Intentional Peer Support Specialists. This is an open forum for people invested in CIPS practice to share what YOU think is important.

A "peer" is defined as a person who has lived experience with mental health, substance misuse and/or other life challenges.

Please note, if you identify as a "traditional provider" (Social worker, case management, doctor etc.) we ask that in place of attending forums, you submit responses via our online survey. *Contact Mindy Harrison for more information.*

Brought to you by representatives from: The Consumer Council System of Maine; The Peer Support Specialist Network of Maine; NAMI Maine; Youth Move Maine; The Maine Association of Peer Support and Recovery Centers; Depression Bipolar Support Alliance; Intentional Peer Support Advisory Committee and other consumer and advocacy group representatives.
