4 – 24 June
POSAVJE SPRING FESTIVAL OF THEMED TRAILS
Autumn Festival of Hiking and Gastronomic Experiences

You can hike in Slovenia in all seasons. Summer is ideal for visiting the high mountains, because most of the snow melts in June. This is also a season known for afternoon storms, so you should observe the old saying that “the early bird catches the worm” in order to hike in the mountains safely. Autumn is the most beautiful season for hiking. Colourful forests, yellow larches, blue skies, and white limestone rocks are unforgettable images that hikers can take back to the valley with them.

The rich flora of Bohinj and the mountains above it as a feast for the eyes for all visitors to Bohinj and the surrounding area from early spring until autumn. This extraordinary natural heritage and related cultural heritage are an obligation to act responsibly. Through the International Wildflower Festival, we wish to highlight the importance of conserving wildflowers and flowering meadows, promote the development of the local community and offer visitors to Bohinj a genuine experience of unspoilt nature.

Festival programme

FLOWERS IN SCIENCE
• Specialist conferences: Examples of good practices, interpretations of natural and cultural heritage in tourism

FLOWERS IN ART
• Concerts, exhibitions, theatrical performances

FLOWERS AT HOME
• Using flowers in cooking and crafts

GUIDED EXCURSIONS
• Botanical and ornithological guided excursions

WORKSHOPS FOR ADULTS AND CHILDREN
• Photography workshops, creative/exploration workshops for children

This third edition of the Hiking Festival once again offers a wide range of activities for every taste in the enthrancing surroundings of the Kamnik-Savinja Alps. Take a few days to enjoy an active break in the area – making the most of the wide choice of accommodation. Join us!
