### CHARTING A SMART COURSE FORWARD FOR GREEK SHIPPING

We will hold our **2025 Marine Money Greek Ship Finance Forum** on **Thursday, 16th October 2025** at **Asteria Glyfada (DOMUS)**. Our new venue is a modern event center with excellent space for the conference and for networking. Access is easy and parking is available.

The year to date has been eventful with political decisions from Washington impacting on trade, stock markets, and interest rates. Although we do not yet see a huge impact on shipping, by the time of the conference in October economic indicators will have absorbed these policies and it is likely that the news will be very mixed for shipping and trade. Also freight rates generally continue to be sluggish but vessel prices have kept relatively strong. Something has to give to reinstate the balance, and it is likely vessel values will fall. This will present new opportunities for investment and the theme of our Greek 2025 conference is **CHARTING A SMART COURSE FORWARD FOR GREEK SHIPPING**

As well as presentations and interviews some topics will include:

- *Now in Q4, will 2025 end with a bang or a whisper?*
- *Political turmoil has reached a peak in 2025. How to invest in shipping with so much uncertainty.*
- *Big is getting bigger through investments and M&A. How Greek shipping companies are growing their fleets.*
- *Vessel values vis a vis vessel earnings. What has to give to make the market attractive to new investment.*
- *Finance for Greek shipping from Europe, the US and the Far east.*
- *Digitisation and the route ahead for smart shipping.*
- *CHARTING A SMART COURSE FORWARD FOR GREEK SHIPPING*

Our 2025 Greek conference is the ideal opportunity to discuss shipping, finance, and investment with experts from Greece and around the world. We are inviting some of the largest shipping personalities as well as financiers of shipping from New York, Europe, and Asia. Diverse views from diverse perspectives always lead to fruitful interaction.
