## Hunting dogs help catch escaped lion

**Hunting dogs** in northern KwaZulu-Natal have helped catch one of three lions that escaped from an unidentified enclosure. The wild animals were spotted in Gluckstadt, near Vryheid and were reported to have killed livestock in the area. Ezemvelo KZN Wildlife's Musa Mntambo said a team of various government departments and private organisations, including those with professional hunting dogs, "managed to destroy" one of the three lions living in the bush. The remaining two lions escaped into nearby bushes, he said. - TimesLIVE
