# Website Pro

WordPress hosting on Google Cloud Platform

Google-fast WordPress sites

Host your website on a platform that's fast, secure, and easy-to-use—it's all possible when you combine Google Cloud Platform with WordPress.
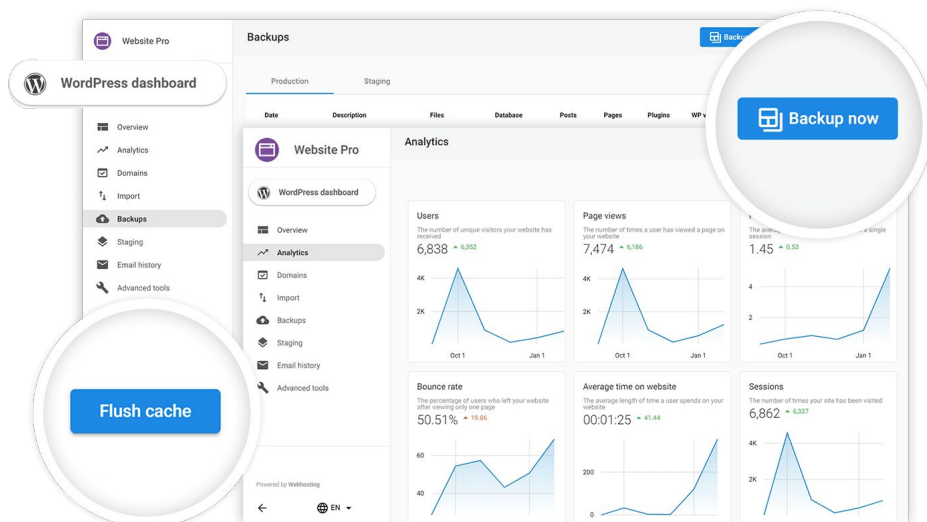

World-class hosting with Google

Enjoy world-class and automated storage, speed, and security. Gain peace of mind knowing your site is hosted with the most trusted source on the internet—Google Cloud Platform.

Robust CMS

WordPress is the number one Content Management System (CMS) in the world—powering over 60% of CMS based websites on the internet.

Engaging reporting

Website Pro comes with a detailed reporting dashboard that highlights key performance metrics such as your page speed, number of website visitors, and more.

Built-in security

Website Pro performs automatic backups every day, allowing you to restore your site in one click. Plus, the included SSL certificate ensures your site provides the most secure connection to your visitors.
