Skip the back and forth. Streamline your scheduling workflow.

### Custom Availability

Control the availability you show clients, so you're only ever booked when you want to be.

### Payment Collection

Stop invoice chasing — give clients the option to book and pay for appointments at the same time.

### Booking Calendars

Set custom booking calendars so you can automatically add different meetings to different calendars.

### Meeting Types

Make meeting set-up easy — create & reuse templates with custom settings for video, duration, time buffers, and more.

### Website Embed

Capture visitors at the height of interest and turn them into bookings by adding scheduling to your website.

### Round Robin

Automatically assign meetings to members of your team based on real-time availability or invitee preference.

There's a better way to meet.  
CalendarHero shows you how.
