

## After the Diagnosis Design Document

---

<i>Business Purpose</i>	To help newly diagnosed Alzheimer’s patients learn more about the disease, causes, and symptoms as it progresses. Helpful tips are provided to help patients and their loved ones create a plan to learn how to handle each obstacle as it occurs.
<i>Target Audience</i>	Newly diagnosed Alzheimer’s patients and their spouses, friends, and family
<i>Training Time</i>	15-minutes
<i>Training Recommendation</i>	A 15-minute training module created in Articulate RISE to serve as a blueprint to aid patients and families. Scenarios will be presented to emphasize how to maintain quality of life as the disease progresses
<i>Deliverables</i>	15-minute RISE module to assist patients and family members
<i>Learning Objectives</i>	<p><i>At the end of this training, patients and their loved ones should be able to:</i></p> <ul style="list-style-type: none"> <li>• Clearly define Alzheimer’s and its causes</li> <li>• Label and acknowledge the symptoms of Alzheimer’s as the disease progresses</li> <li>• Realize the importance of good medical care, help with everyday tasks, control of finances and a healthy lifestyle to maintain quality of life</li> <li>• Explain the importance of caretaker self-care</li> </ul>
<i>Training Outline</i>	<ol style="list-style-type: none"> <li>1. Alzheimer’s Defined</li> <li>2. Causes</li> <li>3. Symptoms – sort each according to mild, moderate or severe</li> <li>4. Now What? Importance of being informed</li> <li>5. Take Care of Yourself <ul style="list-style-type: none"> <li>• Medical care</li> <li>• Help with everyday tasks</li> <li>• Financial planning</li> <li>• Staying healthy</li> </ul> </li> <li>6. Scenario – what would you do? Present different scenarios to emphasize importance of each bulleted step</li> <li>7. Help for caretakers – importance of a support system and resources with links provided</li> <li>8. Conclusion</li> </ol>
<i>Evaluation Plan</i>	Scenario grading will assist learner as they decide which choice to make when faced with difficult decisions regarding medical care, help with everyday tasks, financial planning and staying healthy. Learner must get 6/8 cards correct for sorting activity with symptoms
