# The Magic Formula...

$\mathcal{L} = \oint E \cdot t$

$f(\omega) = \int_{-\infty}^{\infty} f(x) e^{-2\pi i x \omega} dx \frac{d}{d\omega}$

$\nabla \cdot E = 0 \quad \nabla \times E = -\frac{1}{c} \frac{\partial H}{\partial t}$

$\nabla \cdot H = 0 \quad \nabla \times H = \frac{1}{c} \frac{\partial E}{\partial t}$

$(-i\hbar \frac{\partial}{\partial t} \Psi = H \Psi)$

$\rho (\frac{\partial v}{\partial t} + v \cdot \nabla v) = -\nabla p + \nabla \cdot T + f$

$H = -\sum p(x) \log p(x)$

$\frac{1}{2} G^2 S^2 \frac{\partial^2 V}{\partial S^2} + r S \frac{\partial V}{\partial S} + \frac{\partial V}{\partial t} - r \cdot V = 0$

$TC(Q, q_i, m_i) = \sum_{i=1}^n \left[ \frac{D_i}{m_i q_i} S_i + c_i v D_i + \frac{q_i H_i^v}{2} (m_i (1 - \frac{D_i}{P_i}) - 1 + 2 \frac{D_i}{P_i}) \right] +$

$\left[ \frac{d \Delta p(s, \phi)}{d \phi} \right] = \begin{bmatrix} \gamma & -\beta \\ -\beta & 0 \end{bmatrix} \begin{bmatrix} \Delta p(s, \phi) \\ \Delta M(s, \phi) \end{bmatrix}$

$\int_0^{\pi} (\log \sin x)^2 dx = \int_0^{\pi} (\log \cos x)^2 dx = \frac{\pi}{2} \left\{ \frac{\pi^2}{12} + (\log 2)^2 \right\}$

# Responsibility #1: BE YOU.

- ✓ Vulnerable
- ✓ Transparent
- ✓ Imperfect
- ✓ REAL.

amandaearnest

Hey look! It's me! Looking like a goofball for all of Facebook to see! But tonight, I just wanted to share my thoughts on entrepreneurship, along with a little bit of my story... enjoy! :-P

## Responsibility #2: Navigate the “Noise”

- “You’re embarrassing yourself.” -Shae Taylor
- “People are tired of hearing and seeing you. You’re not interesting enough.” -Regina Stockton
- “•you’re not creative enough. •the market is too saturated.” -Regina Stockton
- “What made you think you could do this? You have no idea what you’re doing. This is for IG babes and makeup pros.” -Austelle Hoyt
- “You don’t look like a makeup artist.” -Tabby Rewis
- “At YOUR age???!!! You just don’t have THE RIGHT LOOK. I have too many other responsibilities.” -Carol Price

## Responsibility #3: Develop Resiliency

1

Stop asking  
“What’s  
wrong” and  
start asking  
“WHAT IS.”

2

Leaders are  
problem  
solvers, not  
victims.

VICTIMS CAN'T  
LEAD.

3

Leaders avoid  
“absolutes.”

*reign*

## Responsibility #4: Nurture Team Culture

**Be more like a gym owner**

**Negative up, positive down  
(and sideways!)**

**Cultivate a GROWTH mindset**

*reign*

## Responsibility #5: To Connect and Remind

*Q: To motivate or not to  
motivate?*

**“The key to success isn’t the ability to do the work, it is instead the ability to remember why you started and why it’s important to keep at it.”  
-Ray Higdon**

**“Great leadership is the combination of building, nurturing, and loving on people where they are, all the while unlocking the potential they have. Great network marketing leaders inspire people to want to do things they normally wouldn’t want to do so they can have more, do more, and become more.” -Angel Fletcher**

# Responsibility #7: Build Belief

*Don't do it for those who said  
you couldn't, do it for those  
who said you could.*

*Magdalena*
