

Certificate Course in
NURSING PHARMACOLOGY

Course Description:

Certificate in Nursing Pharmacology is an interactive, media-rich online tutorial designed to help students learn about pharmacology and drugs given in practice. The tutorial contains 12 modules with about 200 prototype drugs addressed. Each module focuses on drugs that relate to a body system and contains detailed drug information related to the drugs used in the management of various disease conditions. Video case studies that simulate providers interacting with clients focus on the clinical application of drug information. 10-item drills at the end of each module reinforce content and enhance learning. Relevant guidelines for client education is provided where relevant.

Get certified in Nursing Pharmacology from Medvarsity and ATI Nursing Education (USA), which is a leading provider of nursing education and resources. ATI has partnerships with more than 80 percent of nursing programs across the United States and has played a role in helping more than 1 million students pass the NCLEX, the U.S. nursing licensing exam. This course is being offered for the first time in India, in partnership with Medvarsity.

Course Benefits:

- Promotes success in nursing practice by providing an excellent resource for practicing nurses and students in graduate nurse programs.
- Teaches all students to:
- Monitor for the expected therapeutic effects of drugs.
- Understand the pharmacologic action of drugs.
- Anticipate common side and adverse effects of drugs.
- Apply drug knowledge and use proper technique during drug administration.
- Provide needed client education regarding prescribed drugs.
- Avoid giving drugs to clients who could be harmed by their use.
- Recognize potential interactions that can cause adverse and even life-threatening effects.

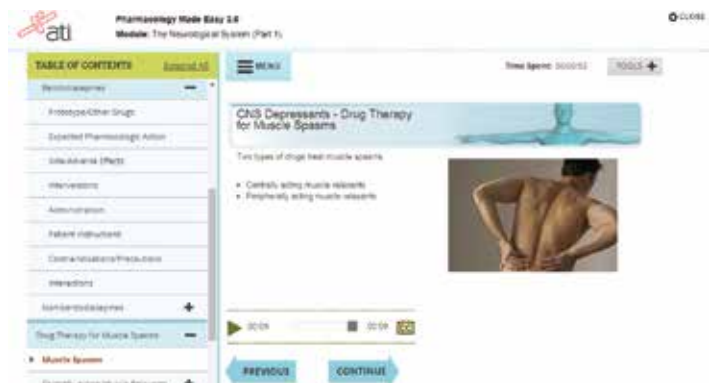

What you will learn?

- *Module 1: Introduction to Pharmacology*
- *Module 2: Neurological System (Part 1)*
- *Module 2: Neurological System (Part 2)*
- *Module 3: Musculoskeletal System*
- *Module 4: Respiratory System*
- *Module 5: The Cardiovascular System*
- *Module 6: The Hematologic System*
- *Module 7: The Gastrointestinal System*

- *Module 8: Reproductive and Genitourinary Systems*
- *Module 9: The Endocrine System*
- *Module 10: The Immune System*
