

# PG DIPLOMA IN HOSPITAL AND HEALTHCARE MANAGEMENT

## About Us

Medvarsity Online is Asia's largest healthcare Ed-Tech company, with over 2 lakh medical professionals trained and certified. Our partnerships with leading universities globally enable us to present the best courses and faculty to our students and help them meet their learning goals. Medvarsity is on a mission to bridge the gap of skilled medical professionals with over 150 courses in clinical & management areas for doctors, nurses, and general management personnel, covering specialties like Diabetes, Emergency Medicine, Cardiology, Nutrition, Wellness, Healthcare Informatics, Mental Health & more, with all the content being up-to-date.

Medvarsity has presence across 10 locations in India and students across India, Middle East, Africa, and South-East Asia. Our blended training solutions combine the best of traditional e-learning, live virtual classes, clinical bedside learning, mobile learning models to deliver impactful courses to our students.

## Course Overview

The PG Diploma in Hospital and Healthcare management (PGD-HHM) is a one-year blended-learning course that will provide the student with managerial skills essential for planning and administering healthcare services. The student will learn how to operationally manage the clinical and support services in a hospital. The course will also provide the students practical tips of implementing quality and accreditation standards in the healthcare settings. Students will also learn about medical laws and regulations governing healthcare services in India and the role of insurance in healthcare. In the second-semester, the students will get a 30-day rotation in various departments of a leading hospital to observe administrative and operational aspects of hospital management. This course will prepare the students for administrative and managerial roles in the hospital sector.

## Course Objectives

By the end of the course, the student must be able to:

- Provide a strong understanding the application of general management concepts in hospitals and other healthcare organizations.
- Impart knowledge required for planning and organizing healthcare organizations, services, and activities.
- Impart necessary knowledge and practical orientation to help students understand how to efficiently manage the day-to- day affairs of a hospital/ healthcare facility.
- Enable the student with the skills needed to address opportunities and problems in healthcare organizations.
- Prepare students to become qualified managers and administrators, who can efficiently manage hospitals and healthcare organizations by applying modern management techniques.

## Course Outline

### Curriculum

#### SEMESTER 1

- Management Functions and Behaviour
- Hospital Functions and Services
- Hospital Planning
- Hospital Organization
- Quantitative Techniques in Management
