ABOUT
MEDVARSITY

Asia's Largest Healthcare EdTech Company

Medvarsity is Asia`s largest healthcare ed-tech company offering online and blended learning programs exclusively for healthcare professionals. In the last five years, we have positively impacted the careers of over five lakh healthcare professionals across 190+ countries. More than 300 highly motivated professionals work with us to deliver effective processes. Today, we cater to the requirements of both healthcare professionals as well as non-clinicians ensuring industry demand and skilled workforce are in a perfect state of equilibrium.

It is imperative for doctors to acquire Continuing Medical Education (CME) credits to continue practicing in private or public healthcare organizations, especially in the United Arab Emirates. The CME programs by Medvarsity.ae will enhance your clinical practice and enable you to deliver quality patient care. Medvarsity's Certificate courses help healthcare professionals acquire the relevant skills to help them advance in their evolving scope of medical practice.

Medvarsity has won several accolades for its contribution to healthcare education and healthcare technology. In 2022, Entrepreneur India and the Ministry of Electronic and Information Technology awarded us with the Best Ed-tech Deployment for higher education. In 2021, Medvarsity won Asia's Greatest Brands in education and ed-tech, an award by Asia One magazine.

5,00,000+ medical professionals trained and certified

COURSES
200+ courses in clinical, management and administration

PARTNERS
Global universities and industry leaders

PRESENCE
Students and partners from 190+ countries

Knowledge Changes Lives

SPECIALIST CERTIFICATE IN
MEDICATION SAFETY

Medication safety incidents occur when an unexpected or unintended event leads to harm to a patient. A medication safety incident can occur at any stage of the delivery of medication to a patient. These stages could range from prescribing medication by the physician to dispensing, preparing, administering, and monitoring the medications. Also, in ambulatory settings, patients who are the ultimate users of drugs can also make errors. By getting well versed in medication safety aspects, healthcare professionals can detect the occurrences of such errors and identify areas of improvement.

Medvarsity and the International Society for Quality in Health Care (ISQua), have curated an online education program on medication safety for healthcare professionals. This "Specialist Certificate Course in Medication Safety", covers a wide range of concepts from introduction to medication safety to using unit hurdles to reduce adverse drug events. It is a self-paced course that enables learners to apply best practices in various healthcare systems.

ACCREDITATION PARTNER
