

# 150AH 12.8V LITHIUM BATTERY

## Key Features

### · Unparalleled Quality

Made from A class cells with industry-leading technique, Eco-worthy LiFePO4 batteries boast 10 times longer life than lead-acid batteries. Along with 100% usable capacity and wide working temperature range, they will be the strong support to your need of power.

### · Lightweight Design

The LiFePO4 batteries are about 1/3 lighter and smaller than lead-acid batteries. This special design makes outdoor use and indoor installation easier. It is an ideal choice to save your force and indoor rooms.

### · Long Lifetime

Eco-worthy LiFePO4 batteries can be recharged 3000~5000 times for a longer cycle life. The self-dissipation of the batteries is as low as 3% per month, giving better performance on storage and endurance.

### · Perfect Protection

The built-in BMS(Battery Management System) provides protection features for overcharging, over-discharging, over temperature, short-circuit and so on, keeping the battery well maintained and reliable.

### · Capacity Expansion

Eco-worthy LiFePO4 batteries can support both series and parallel connections for bigger capacity and better performance. The reliable cells ensure the battery bank works in perfect condition.

## Specification

Lithium Iron Phosphate (LiFePO4)	
Nominal Voltage	12.8V
Rated Capacity	150Ah
Absorption Voltage	14.4V
Temperature Compensation	No
Charging Cut-off Voltage	14.6V
Discharge Cut-off Voltage	10V
Recommended Charging Current	75A
Maximum Charging Current	120A
Maximum Discharge Current	120A
Bluetooth Connection	Yes
Self Heating	No
BMS Protection	Yes
Internal Resistance	25mΩ
Storage Temperature	20-30 °C
Charging Overheat Protection	65 °C
Discharge Overheat Protection	75 °C
Charging Overheat Recovery	55 °C
Discharge Overheat Recovery	65 °C
Charging Low Temp Protection	-7 °C
Charging Low Temp Recovery	-2 °C
Cycles	4000

# 12.8V 150AH

LiFePO4 Battery

## ECO-WORTHY

# PRODUCT DIMENSION

## Dimension

Length	331 mm
Width	173 mm
Height	220 mm
Weight	15.7KG
Terminals	M8

## Material

Case and Cover	ABS
Color	Black

Up to 16 batteries can be connected in series or parallel to make a 48V battery pack

Parallel Connection  
**12 Voltage**

Series Connection  
**48 Voltage**
