Easy Cloning

A solution to redefine simplicity in data cloning, with just a single button press, you can initiate the cloning process. Eliminating the need for complex software installations or PC setups. The device is able to clone from various sources, including 2.5"/3.5" drives or M.2 PCIe NVMe SSDs, directly to M.2 PCIe NVMe drives.

Versatile Compatibility

Offering three independent slots, each capable of connecting to your PC simultaneously. The toolless design allows for quick and easy docking of drives, this feature is particularly beneficial for users dealing with various data types or those needing to access multiple storage devices concurrently.

High-Speed Performance

Harnessing the power of USB 3.2 Gen 2 technology, the IB-2924MSCL-C31 delivers lightning-fast data transfer speeds of up to 10 Gbit/s. The device comes equipped with an ICY BOX® combo cable, offering dual connectivity options. Providing users with the flexibility to connect to a wide range of devices without the need for additional adapters.
