

20AH 12.8V LITHIUM BATTERY

Key Features

· Unparalleled Quality

Made from A class cells with industry-leading technique, Eco-worthy LiFePO4 batteries boast 10 times longer life than lead-acid batteries. Along with 100% usable capacity and wide working temperature range, they will be the strong support to your need of power.

· Lightweight Design

The LiFePO4 batteries are about 1/3 lighter and smaller than lead-acid batteries. This special design makes outdoor use and indoor installation easier. It is an ideal choice to save your force and indoor rooms.

· Long Lifetime

Eco-worthy LiFePO4 batteries can be recharged 3000~5000 times for a longer cycle life. The self-dissipation of the batteries is as low as 3% per month, giving better performance on storage and endurance.

· Perfect Protection

The built-in BMS(Battery Management System) provides protection features for overcharging, over-discharging, over temperature, short-circuit and so on, keeping the battery well maintained and reliable.

· Capacity Expansion

Eco-worthy LiFePO4 batteries can support both series and parallel connections for bigger capacity and better performance. The reliable cells ensure the battery bank works in perfect condition.

Specification

Lithium Iron Phosphate (LiFePO4)	
Nominal Voltage	12.8V
Rated Capacity	20Ah
Absorption Voltage	14.4V
Temperature Compensation	No
Charging Cut-off Voltage	14.6V
Discharge Cut-off Voltage	10V
Recommended Charging Current	10A
Maximum Charging Current	20A
Maximum Discharge Current	20A
Bluetooth Connection	No
Self Heating	No
BMS Protection	Yes
Internal Resistance	25mΩ
Storage Temperature	20-30 °C
Charging Overheat Protection	90 °C
Discharge Overheat Protection	90 °C
Charging Overheat Recovery	80 °C
Discharge Overheat Recovery	85 °C
Charging Low Temp Protection	No
Charging Low Temp Recovery	No
Cycles	4000
DC port	5.5*2.5

12.8V 20AH

LiFePO4 Battery

ECO-WORTHY

PRODUCT DIMENSION

Dimension

Length	221 mm
Width	113 mm
Height	117 mm
Weight	2.2KG
Terminals	M5

Material

Case and Cover	ABS+PC
Color	Orange + Black

Up to 16 batteries can be connected in series or parallel to make a 48V battery pack

Parallel Connection
12 Voltage

Series Connection
48 Voltage
