

MAUS Xtin Grand

Art nr 3001-1

MAUS Xtin Grand is the largest handset in the MAUS series. Grand is suitable for larger machines where more power is needed to fight a fire. The MAUS Xtin Grand uses the same technology as the MAUS Xtin Klein, which means firefighting-free without contamination.

MAUS Xtin Grand is 3 times as powerful as the MAUS Xtin Klein.

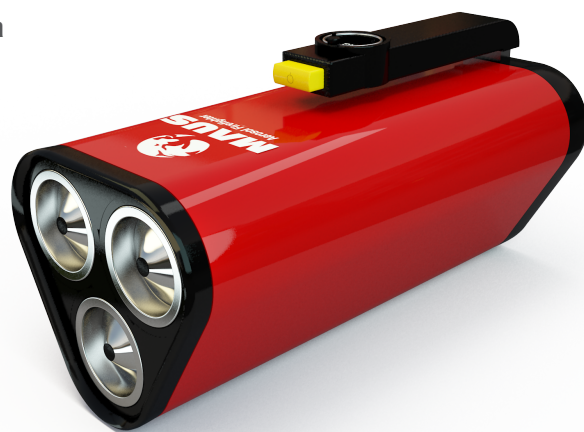

1. Pull out the manual fuse (ring) on the handle, then pull out the handle.
2. Aim the nozzle at the base of the flame.
3. Press the Press Start button once to activate it.
4. Hold the device firmly and do not use any sweeping movements.

Important! All "smoke" (aerosol) must end up on the fire. When the fire decreases in strength, carefully approach the fire to extinguish it completely. Starting position at least 1 meter from the fire.

SPECIFICATIONS

MAUS Xtin Grand	PGA Fire Extinguisher
Article number	3001-1
EAN-number	7350015530041
Dimensions:	L: 236 mm, Ø 120 mm
Weight, filled	1750g
Temperature range	-20°C - +60°C
Fire classes (according to certificate)	21BC
Emptying time:	9 seconds
Throw length	3 metres
Packaging:	Kartong med
Number of units inner box:	4
Shelf life:	5 years from date of production
Transport instruction:	ADR-transport. 1.4S.

RINA

Each unit package comes with a wall bracket with screws and an instruction manual in English.
