Arvada Auto Accident Lawyer FAQ

Answers to common questions about car accidents in Arvada

Based on Auto Accident Lawyer Arvada by McCormick and Murphy

Q: What should I do immediately after a car accident in Arvada?

A: Seek medical attention even if you feel fine, as adrenaline can mask injuries. Call the police to ensure an accident report is filed. Document the scene by taking photos of vehicle damage, car positions, skid marks, and traffic signs. Collect names and phone numbers of any witnesses.

Q: Should I apologize or discuss fault at the accident scene?

A: Exchange insurance information with the other driver, but avoid discussing fault or apologizing. Admitting fault, even indirectly, can be used against you by the insurance company.

Q: Why is it important to get medical attention right away?

A: Adrenaline and shock can mask serious injuries that may not be immediately apparent. Delaying treatment can also give the insurance company grounds to argue that your injuries were not caused by the accident.

Q: What information should I gather at the accident scene?

A: Gather names and phone numbers of witnesses, take photos of the damage to all vehicles, the position of the cars, skid marks, and traffic signs. You should also exchange insurance information with the other driver.

Q: Should I talk to the insurance company after an accident?

A: It is advisable to contact a car accident lawyer before giving any statements to the insurance company. They can help protect your rights and ensure you don't inadvertently harm your claim.

Q: What if I don't think my injuries are serious?

A: Even if you feel fine, it's crucial to get medical attention. Adrenaline and shock can hide significant injuries. Prompt medical evaluation is important for your health and your legal case.

Q: Why is an accident report important?

A: A police report provides an official record of the accident, which can be crucial when dealing with insurance companies. Ensure the police are called and a report is filed.

Q: What kind of photos should I take at the scene?

A: Take pictures of the damage to all vehicles involved, the final position of the cars, any visible skid marks, relevant traffic signs, and any other details that help illustrate how the accident occurred.

Q: Who should I contact if I've been in a car accident?

A: You should contact a car accident lawyer, especially before speaking with the insurance company. A lawyer can guide you through the process and advocate for your best interests.

Q: Can delaying medical treatment hurt my insurance claim?

A: Yes, delaying medical treatment can give the insurance company an excuse to argue that your injuries were not caused by the accident, potentially weakening your claim.
