

Visiting the Health Center

The safety procedure for outside visits is as follows:

- Schedule your visit through Kathy Cookson at kathy.cookson@mcleancare.org
- Please arrive 10 minutes early; proceed to front door, wearing a mask. Your temperature will be checked, as well as a pulse oximeter reading taken, and you will be asked to wash your hands upon entering and exiting this health screening area.
- A mask must be worn by all visitors at all times on campus.
- If you are bringing a gift or package, it must be left on the table outside our entrance. It will be delivered to your loved one after the necessary cleaning precautions have been taken.
- There will be a barrier between you and your loved one, and chairs will be six feet apart.
- Chairs will be wiped down between visits.
