

TAKE THE QUICKEST ROUTE WITH CABLE PAYOUT **REEL TAXI®**

Simplify data cable installations with a ground-level reel payout solution from BHS, Inc. The Reel Taxi is a small-footprint, steel-framed roller platform that travels smoothly on integrated poly casters. Use it to roll your reel into place, lock the wheels, and start pulling cable without strain or complication. Two poly-coated rollers adjust to accommodate most common spool sizes. Reel Taxis speed up the final stages of wiring any space while providing ergonomic benefits for safer, more comfortable payout every time.

Sized for Standard Cable Reels

Pre-set roller positions accommodate spools between 12 and 24 inches in diameter, ideal for bulk Cat 5, Cat 6, and other data cable installations.

Moves Easily, Locks Firmly

Swivel casters make the unit easy to position, even when fully loaded. Once in place, foot-activated locks limit all motion but the reel's steady rotation.

Protects Spools During Travel and Payout

Poly-coated rollers enhance durability while avoiding damage to reel flanges. Two poly blocks on the interior of the frame provide further protection for spools, before, during, and after payout.

Heavy Duty Construction

The Reel Taxi features a steel frame with a durable powder coating for a lifetime of dependable performance.

REEL TAXI®

WIRE & CABLE HANDLING

Heavy Duty Construction

Steel, powder-coated frame for high-capacity service

High Load Capacity

Maximum carrying capacity of 400 pounds

Spool Protection

Poly guards on the interior of the frame protect spools during travel and payout

Easy to Deploy

Simplifies transport and positioning of data/Cat 5/Cat 6 cable reels

Adjustable Spool Cradle

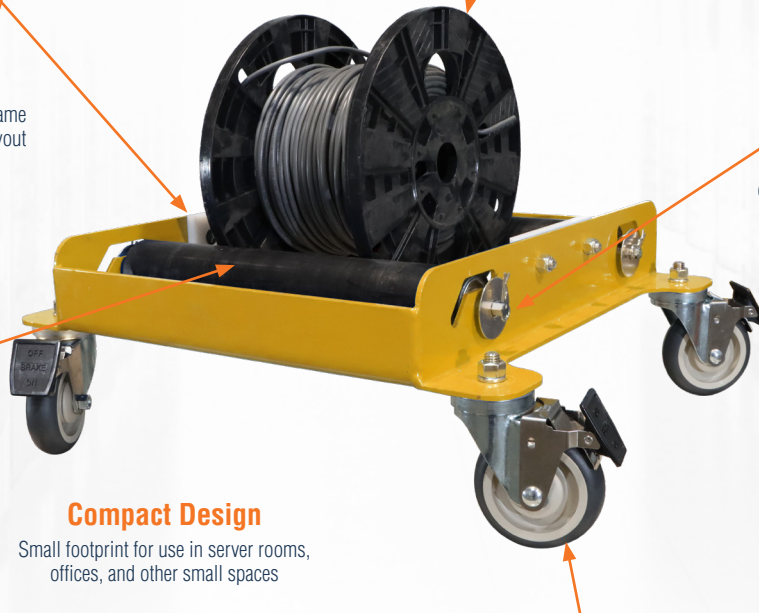

Adjustable roller positions support common small spools from 12" to 24" in diameter

Smooth Payout

Roller platform provides safe, efficient cable payout. Poly-coated rollers enhance durability and prevent damage to spool flanges.

Compact Design

Small footprint for use in server rooms, offices, and other small spaces

Optional Handle

Add the optional Removable Handle (RT-HDL) to the Reel Taxi for simplified maneuvering around the jobsite

Full Mobility & Secure Braking

4 swivel casters for full mobility; foot-activated brakes lock unit into place during payout

Model	Overall Width	Overall Depth	Overall Height	Roller Width	Spool Diameter	Capacity	Weight
RT-1424	21.625" (549 mm)	23.875" (606 mm)	8.5" (216 mm)	14.625" (32 mm)	12"-24" (305-610 mm)	400 lb 181 kg	34 lb (15.4 kg)
