

# Reels

BHS Reels are designed to store cable, wire, rope, hose, or tubing without tangling and are available in a variety of compartment configurations and widths. Reels are ideal for use with Reel Stands, which hold up to five independently spinning reels, or these items can be ordered together as one unit — the Parallel Reel Payout (PRP) or the Parallel Reel Payout Wagon (PRW).

Reels are constructed from heavy-duty steel with a powder-coat finish to give them added reliability and durability. All compartments have predrilled arbor holes to accommodate a wide variety of wire gauges (0.75 inches to 1.12 inches). 0.5" (13 mm) hub plates feature through-holes to allow locking multiple compartments together.
