

WAREHOUSE INNOVATIONS

CLEAR VIEW LOCKER

The Clear View Locker provides secure storage for tools, PPE, personal belongings, and more. Electronic keypad locks ensure only authorized users gain access to contents. Clear Plexiglass windows maintain locker security while deterring storage of inappropriate items at the workplace. The combination of security, visibility, and access-control makes the Clear View Locker the ideal storage solution for teams of all sizes.

Secure Storage With Visibility

Each compartment locks individually, while 8" (203 mm) by 8" plexi-glass windows offer full visibility to all.

Programmable Electronic Locks

Assign lockers with a unique keycode, and reprogram locks for each new user.

Heavy Duty Construction

Steel construction prevents unauthorized access, while a chemical-resistant powder coating withstands any workplace environment.

Custom Models Available

Standard Clear View Lockers include 12 compartments, sized 16.562" (420 mm) by 15.125" (384 mm). Custom locker sizes and configurations are available on request.
