

## CABLE TRAY CART

Cable Tray Carts speed up cable installations while creating a safer working environment through ergonomic principles. These steel construction carts allow you to move a full room's worth of cable tray, ending productivity bottlenecks associated with jobsite material handling.

### Quick Access to Cable Tray at the Point of Installation

Restraint posts keep cable tray boxes safely in place during travel. These posts are removable to simplify loading and unloading at the bottom of the stack. Standard side rails rise 33" (83.8 cm) above the storage bed for high-volume tray storage.

#### Delivered Solutions for Wholesalers

Ship large cable tray orders pre-loaded onto carts, complete with labels to designate installation area.

#### Increased Efficiency for Electricians

Reduce material handling time considerably. Ensure quick access with low-to-no strain on employees.

#### Powder-Coated Steel for Durability

Cable Tray Carts are designed to endure harsh industrial settings. That's why they're engineered from steel and finished with a powder-coat for strength you can rely on.

#### Custom Models Available

Get custom dimensions, capacities, colors, laser-cut logos, and more. Work with a BHS Representative for a cart built to your specifications.

# ELECTRICAL MATERIAL CARTS

## CABLE TRAY CART

### Versatile Transport

These heavy-duty carts safely and efficiently transport materials like lumber, pipe, rebar, and tools, and can also function as mobile storage racks in warehouses and manufacturing facilities.

### High Capacity

Supports stacked cable tray loads up to 33" (83.8 cm) in height, weighing up to 3,000 lb (1361 kg).

### Lasting Durability

Durable welded steel construction ensures long-lasting, dependable service.

### Tailored Designs

Custom sizes, shapes, colors, and capacities available on request.

### Secure Containment

Removable restraint posts securely hold cable tray boxes in place.

### Complete Solution

Pre-loaded Cable Tray Carts deliver a complete, ready-to-use solution for installations with significant loads of cable tray, rigid conduit, or both.

### Smooth Maneuverability

Four swivel phenolic casters with brakes improve maneuverability.

### Wholesale Efficiency

Cable Tray Carts are ideal for electrical wholesalers, enabling bulk orders to ship on pre-labeled carts as a value-added service.

MODEL	Overall Length	Overall Depth	Overall Height		Distance from ground to frame surface	Capacity	Weight
			with posts	without posts
