

MATERIAL HANDLING INNOVATIONS

SECURITY CART

The BHS Security Cart (SEC) is a portable storehouse that protects valuable tools, equipment, and supplies from theft while allowing easy access for authorized personnel. This heavy-duty rolling cart from BHS is the perfect solution for on-site storage.

The mobile security cart is easy to transport and reposition between work sites. All models are equipped with casters for moving lighter loads across short distances. Add optional fork pockets or lifting eyes for heavier loads or longer distances.

Unlike mesh trucks built for light-duty use, the BHS Security Cart is made from heavy-duty steel and has a powder coat finish to protect it from wear and tear. Its steel shelves are adjustable to accommodate various sized materials. The doors open to 180 degrees for convenient access to supplies. This storage cart is padlockable to further deter theft.

Secure Storage

Security Carts store and protect tools, supplies, and other valuables with structural and expanded steel. Keep contents securely padlocked within a heavy-duty cage.

Highly Mobile

Transport the Security Cart manually, by crane, or via lift truck. Standard frame includes casters and a push bar. Lifting Eye Bolts and Fork Pocket options can be added at the time of order.

Extreme Durability

Heavy-duty steel construction prevents damage to the frame, shelving, and contents. A damage-resistant powder coating protects all surfaces.

Flexible Application

Adjust the bolted-in steel shelves as needed to store materials of various heights. Protect construction materials at the job site, even between shifts.

INDUSTRIAL CARTS

SECURITY CART

Magnetic Door Closure

Magnets positioned at the top and bottom of the frame aid in quick door retention

Durable Construction

Heavy duty steel tube frame for durability, expanded metal front and back for visibility of contents, finished with a durable powder coat for long service life

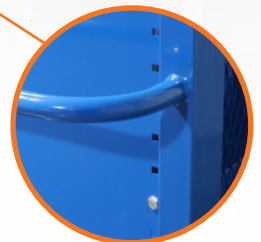

High Load Capacity

Choose from 2,000 lb or 5,000 lb capacity models

Increased Maneuverability

Push bar makes it simple to position unit, and a slim profile ensures that the SEC fits through a standard commercial 36" x 80" doorway

Adjustable

Rigid steel shelves are adjustable

Asset Protection

Padlockable to guard assets from theft (padlock not included)

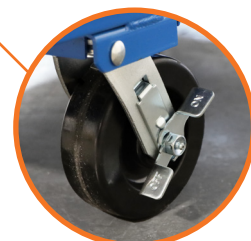

Versatile Doors

BHS's Security Cart comes with two removable door slabs that open 180° to accommodate larger objects or provide more space when shipping unit. Doors are equipped with flip latches to keep closed and pull handles for easy entry. Four door models also available.

Fully Customizable

Custom sizes, capacities, and engineered models available on request.

Travels Anywhere

Smooth-rolling, heavy-duty casters simplify transport (2 swivel with brake and 2 rigid)
