

PRESENTING OUR NEWEST INNOVATION

DYNA REEL PLATFORM

The BHS Dyna Reel Platform is a reel-roller platform built for safe, easy cable payout in the absence of Reel Stands. It accommodates reels of any size, in wood or steel. Heavy-duty steel construction ensures a long, dependable working life. Base design protects cable assets and prevents damage during payout, and a steel loading ramp simplifies loading and unloading of reels.

Total Solution

The Dyna Reel Platform is an ideal resource for electrical and data-cable suppliers, construction electricians, and wire/cable distribution centers. Along with a Spool Winding Trolley or a Spooling Caddy, the DRP provides a turnkey solution for loading cable reels.

Adjustable for Any Drum or Reel

Set the rear roller to any of six positions to accommodate larger or smaller reels. Adjustment only takes a moment, and keeps steel rollers locked in position.

Reel Secures Firmly to Base

An optional Tie Down Kit includes shaft tie-down assemblies with eye bolts; these attach to either end of the spool axle, allowing ratchet straps to secure reels to eye bolts in the base.

Compatible with BHS Reel-Winding Solutions

Use Spool Winding Trolleys and Spooling Caddies with the Dyna Reel Platform to fill spools quickly, safely, and without ergonomic risk.

Heavy-Duty Construction for Durability

Steel construction and a scratch and impact resistant powder coating provide decades of dependable use, even in harsh industrial environments.

WIRE AND CABLE MANAGEMENT

DYNA REEL PLATFORM

Mobile Models Available

Dyna Reel Attachment (DRPA-36-FP & DRPA-36-PJ) attach to a forklift or pallet jack for simplified reel transit

High Load Capacity

5,000 lb capacity

Total Turnkey Solution

Along with a Spool Winding Trolley or a Spooling Caddy, the DRP provides a turnkey solution for loading cable reels

Added Stability

Unit bolts to the floor, providing an added layer of safety for payout applications with significant resistance

Houses Multiple Reel Sizes

Easily fits spools from 22"-56" diameter and up to 36" wide.

Durable Construction

Heavy-duty steel construction and durable powder coat finish resists rust and scratches

Cable Protection

Base design avoids contact with cable, preventing damage to resources

Space Saving Solution

A compact footprint frees up valuable warehouse space

Optional Tie Down Kit

Includes 2 reel-axle bearing assemblies with 2 eye bolts each, 4 base-mounted eye bolts, and 4 ratchet straps to prevent reel movement against resistance during payout

Adjustable

Back roller is adjustable up to 6"

Smooth Payout

Ball transfers contribute to steady operation for filling reels or paying out cable.

Ergonomic Design

Steel plate loading ramp simplifies access

Model	Description	Capacity	Height	Width	Depth
DRP-36	Stationary Model	5,000 lb / 2268 kg	7" / 178 mm	46" / 1168 mm	32" / 813 mm
DRPA-36-FP	Mobile Model for Use with Forklift	5,000 lb / 2268 kg	8.75" / 222 mm	42" / 1067 mm	57.813" / 1469 mm
DRPA-36-PJ	Mobile Model for Use with Pallet Jack	5,000 lb / 2268 kg	9" / 229 mm	42" / 1067 mm	59.813" / 1519 mm
