PRESENTING OUR NEWEST INNOVATION

CONDUIT CARRIER CART

Transport bulk loads of electrical conduit with the Conduit Carrier Cart, a material-handling cart designed specifically to remove hazards and productivity losses associated with moving this component.

Deliver Conduit Loads to the Precise Point of Installation

The closer electrical materials are to the installation point, the quicker the work gets done. Conduit Carrier Carts offer ergonomic push grips and easy-rolling, locking casters to save time on the job. Carts are available with load capacities of 3,000 pounds, 5,000 pounds, and more.

Handles All Types of Conduit

Load standard lengths of metal conduit, electrical metallic tubing, or rigid PVC conduit for simpler, safer transportation across job sites.

Choose a Model to Fit Your Job Site

Ultra-slim units are just 19 inches wide, to easily fit through narrow aisles and standard door frames. Or choose a high-capacity, high-volume model for bigger jobs.

Steel Tie-Down Plates Secure Loads

Two steel, powder-coated tie-down plates are welded directly to the frame. Secure loads with straps for stability during storage and movement.

Heavy-Duty Steel Construction

Conduit Carrier Carts are precision-welded with steel square tubing to withstand the rigors of construction sites. The powder-coat finish resists damage from chemicals, abrasions, and impacts.

CONDUIT CARRIER CART

ELECTRICAL MATERIAL CARTS

Please note: All specs called out below apply to CC-3K & CC-5K unless a different model is specifically called out

Custom Laser-Cut Logo

Take your brand onto the jobsite with custom laser logos

Secure Materials

Two steel tie-down plates for strapping and securing a load

Move Large Loads with High Capacity Models

Both 6K models of the Conduit Carrier Cart (CC-6K-24060 & CC-6K-46240) attach to a forklift for simplified bulk conduit transport

Capacity

Conduit Carrier Carts can carry 1,500 lb to 6,000 lb of electrical materials depending on selected model

Ergonomic Handles

The CC-3K & CC-5K are equipped with 2 push handles on both sides for simplified positioning

For Simplified Elevator Usage Try Alternate Model

Conduit bed tilts to allow for easy access into and out of elevators as well as standard doorways

Mobility

All Conduit Carrier Carts are available with casters, ensuring that conduit can be moved throughout your facility or jobsite to places forklifts cannot reach. CC-3K & CC-5K feature larger caster in center of unit for easy swiveling.

Enclosed Conduit Storage Available

Lock your conduit in our Will Call Dropbox (HVC-DB-CB) for added security
