

PRESENTING OUR NEWEST INNOVATION

TILTING ELEVATOR CONDUIT CART

It's not always easy to move bulk loads of electrical conduit through a narrow space, like an elevator car or a sharp corner in a tight hallway. The Tilting Elevator Conduit Cart (CC-ELV-1K) provides the solution. This unit's conduit bed lifts and tilts up to 45 degrees, shrinking the overall footprint in an instant.

Highly Mobile on the Job Site

The cart's frame is thin enough to slide easily through standard doorways and into elevator cars, while the deep conduit bed and a heavy-duty load capacity can handle a full job's worth of product.

Adjustable Conduit Bed Fits Virtually Anywhere, Stores with Minimal Footprint

Raise or lower the conduit bed for ergonomics during loading and unloading. Tilt conduit 45 degrees to fit into tight spaces, like elevators.

Rugged Steel Frame and Durable Powder Coating

Like all BHS Material Handling Equipment, the CC-ELV-1K is built to last. A steel frame and a damage-resistant powder coating protect the unit for a long service life.

Comfortable, Ergonomic Controls

The conduit bed tilts 45 degrees, then locks into three positions by pulling a spring loaded locking pin. Two tilt-assist handles provide total control over the process.

Smooth-Rolling Industrial Casters

Polyurethane-covered steel casters operate under heavy loads, and won't mark floors. Two swivel and two fixed casters provide trouble-free steering and straight travel.

TILTING ELEVATOR CONDUIT CART

ELECTRICAL MATERIAL CARTS

Ergonomic Handle

The Elevator Conduit Cart is equipped with ergonomic handles for simplified positioning

Capacity

The Elevator Conduit Cart is designed for standard 10' lengths of conduit and has a load capacity of 1,000 lbs

Custom Laser-Cut Logo

Take your brand onto the jobsite with custom laser logos

Secure Materials

Two steel tie-down plates for strapping and securing a load

Durable Construction

Heavy-duty steel construction and durable powder coat finish resists rust and scratches

Highly Mobile

Two rigid and two locking swivel casters improve mobility

Injury Preventing Design

Bed pivots for improved ergonomics during loading and unloading

Navigate Elevators and Doorways with Ease

Conduit bed tilts to allow for easy access into and out of elevators as well as standard doorways

Model	Capacity	Width	Depth	Height	Casters
CC-ELV-1K	1,000 lb / 454 kg	30.339" / 771 mm	Lowered: 71.5" / 1816 mm Raised: 80.625" / 2048 mm	Lowered: 88.125" / 2238 mm Raised: 51.063" / 1297 mm	Two rigid and two locking swivel casters
