OUR TAKE ON AGING

"Let's embrace age like we do a fine red wine. We get better as we age. As people say, aging is a state of mind."

HOW DID YOUR BRAND COME TO BE?

My wife Christine is a two-time breast cancer survivor and passionate about what she puts in her body and uses on her skin. Having pioneered one of the first medical-grade skin care companies, BioMedic®, followed by a second brand, philosophy®, I knew a brand focused on safe, effective results that eliminates the use of harmful ingredients like xenoestrogens, parabens and phthalates was needed. Probiotics, with all of their nonirritating, skin-balancing and corrective benefits to the stratiome (skin's microbiome) were intriguing to us, and once the science was fully substantiated, glowbiotics was born."

WHAT IS YOUR BEAUTY OR WELLNESS MANTRA?

"If you feel good on the inside you will look good on the outside, everything shows on the skin (stress, happiness, pain). Take care of yourself both inside and out." —Christine
"Less is more!" —David

WHAT IS THE BIGGEST LESSON YOU'VE LEARNED IN THE INDUSTRY?

"Nothing can be rushed. Things happen at the pace they should and patience and a bit of luck are required to succeed." —David

WHAT DO YOU BELIEVE THE FUTURE OF BEAUTY HOLDS?

"As the pioneer of topical probiotics, our hope is that consumers become more aware of the benefits topical probiotics have on their skin. Who doesn't want more balanced, hydrated and youthful-looking skin? Topical probiotics are the missing ingredient, and I believe they will continue to take center stage in beauty products." —Christine
