

Flexe Application

The Prep

- Cleanse the nail thoroughly using Lecenté Prep & Dehydrator.
- Using your Lecenté cuticle tools, remove any non living tissue from the nail plate.
- Using a 240 grit file shape your nails and gently remove the surface shine.
- Thoroughly cleanse and dehydrate using Lecenté Prep & Dehydrator again, achieving a chalky finish, ready to begin your service.

Paint On Method

- Apply primer to all nails and allow to air dry
- Cap free edges and scrub a thin layer clear Rubber Base Coat on to all nails, cure for 60 seconds. * this step is ONLY required for bright and bold colours
- Starting with thumbs, cap edges and paint a coat of Flexe and cure for 60 seconds
- Working 2 nails at a time on 1 hand, paint a coat of Flexe and cure for 60 seconds
- Repeat on 2nd hand. Switch between hands, painting 2 nails at a time
- Repeat process again for the 2nd coat, starting at thumbs and working 2 nails at a time on each hand, until all nails have 2 coats of Flexe
- Remove inhibition layer after curing
- A 3rd coat can be added if necessary on longer nails or nails needing more protection.* Layers need to be no more than 1mm thick
- Using a 240 grit file, gently refine the shape of the nails, clean with Prep & Dehydrate
- Top coat all nails with Rubber Top Coat, cure for 60 seconds, and remove tacky layer with Finishing Wipe. Oil nails and surrounding skin with Lecenté Fortify

Float On / Sculpt Method

- Follow steps of the paint application method above to apply the first coat of Flexe to all nails and then continue with the steps outlined below
- Working 1 nail at a time, paint on a slip layer, pick up a bead and float/sculpt in to position, cure for 90+ seconds
- Swap over to the other hand and repeat

- Work one nail at a time, switching between hands until the process is applied to all nails
- Remove tacky layer with Finishing Wipe
- If necessary, file and shape nails, clean with Prep & Dehydrator
- Apply top coat to thumbs, cure
- Apply top coat to fingers, cure
- Remove tacky layer with Finishing Wipe
- Oil nails and surrounding skin with Lecenté Fortify
