

Let's Put a Worker on the Ballot!

Candidate for U.S. Congress District 37

Juan Rey

**I am a train Mechanic at
L.A. Metro**

I am running because:

- Big businesses inflate prices to steal from the workers.
- Only low wage/part time jobs with little or no benefits.
- Rent and mortgages are too damn high.
- Public education and essential services are destroyed.
- The U.S. spends our money on their gigantic military and their wars of domination.

To address these problems, working people need:

- To build our own independent political party.
- A **Working-Class Party** for all workers:
union and non-union, black and white, immigrant, and native-born.
- To stand together to defend our class interests.

Juan Rey for Congress
