

For a Working Class Fight, a Working Class Program

In their unending chase for profit, corporations and banks stole the wealth our labor produced & they seized public money for themselves.

- They cut jobs, cut wages and drove down our standard of living;
- They destroyed schools and public services, eliminated social services.
- They squandered the money they stole, speculated with it, hoarded it.
- And they work to set us against each other, fighting among ourselves.

The working class needs to put its hands on all the wealth the capitalists have stolen, take it back, use it for emergency measures.

- Hire the needed teachers, repair broken roads, provide clean water. It could improve our children's lives and ours – and also create jobs.

Draw on that hoarded profit to bring up everyone's standard of living.

- By providing jobs.
- By providing adequate wages.
- By making sure wages, pensions, Social Security, unemployment, disability and other benefits go up immediately when prices go up.

Neither Republicans nor Democrats would propose such a thing.

- They represent the capitalist class that benefits from our misery.
- And Donald Trump is just a scam artist, trying to sow divisions among us.

We say: working people need to fix things. No one else will do it for us!

- Together we have the power to fix every problem we face – if we fight.

Maybe few people are fighting today. But there will be a fight.

- Our aim then must be to make the bosses pay for the crisis they created.
- Our goal today must be to keep the bosses from dividing us. We are all part of one working class: black and white, immigrant and native-born, women and men. We need all our forces to stand together.

For Our Own Party, a Working Class Party!
