

# **The Bosses Have Two Parties, Working People Need Our Own**

**The wealthy classes use their hold on money to control political life in this country.**

- They pretend that what's good for them is good for us.

**It's NOT true. We are not one big happy family.**

- Our situation gets worse, our problems multiply.
- And the wealthy get wealthier still.

**That's not normal, not natural, not inevitable.**

**It's, in part, the result of political choices made by Republicans, but also by Democrats.**

- For decades, both of them starved our children's schools for money, starved roads and bridges, starved workers' neighborhoods, starved public transit and public health care.
- For decades, they gave billions in subsidies and gifts to big corporations, big banks, financial speculators and real estate "developers."

**For decades, the wealthy increased their stash, accumulating what the two big parties squeezed from us in taxes.**

**The working class needs its own party, a party that would use the wealth created to build a decent society for everyone.**

**Working People Are the Majority.  
We Can Build Our Own Party.  
We Can Fight for Ourselves.**
