# FORM BUILDER

agendize

Agendize Form Builder allows you to create customized webforms in minutes, collecting the customer information you need, enhancing your client data and getting new leads!

Create customized webforms in minutes!

A	Single line of text		👤	Name
≡	Paragraph of text		$	Price
✓	Checkbox list		123	Number
◉	Radio button list		📞	Phone Number
▾	Dropdown list		📍	Address
📅	Date		🌐	Website
✉	Email		☆	Scale Rating

Compose your forms with the fields of your choice using an easy drag & drop functionality.

Visualize your forms in real-time thanks to the Live Preview mode.

"Finalize Later" feature lets clients take the time they need to fill your forms correctly.

THANKS!

Adapt all the fields you need and even add a "Thank You" message for a personal touch!

Multiple ways to collect the data you need from your clients

Surveys

By combining open-ended and multiple choice-questions, businesses collect detailed data on consumer behavior.

B2B Forms

Adapt your form to professional audiences so your teams have all the information necessary to tailor their sales pitch!

B2C Forms

Get your clients personal and demographic data for better market segmentation and be able to send the right offers at the right time!

Call-to-Action Forms

Structure your form to call your client to a specific action, like requesting an appointment or rates for your services/products!

Drag & Drop

It lets you create your form fields in minutes.

Live Preview

Watch your form evolve as you design it.

Custom Questions

Personalize form questions to get the info you need.

Google Analytics

Track more data on the clients filling your forms.
