

Google My Business Posts

Have our team promote your products and attract more online customers — directly on your knowledge panel!

70% of online customers make a purchase from a business they find using a search engine

A well-maintained Google My Business is vital for your business: It helps improve SEO, increase customer engagement, and drive more visits to your website. However, having an accurate address, phone number, and business name is no longer enough to impress your customers. They expect more.

Why do you need Google My Business posts?

If you want to stand out from the competition, but you don't know how to manage your Google My Business profile or don't have time to create promotional content, this is the right service for you.

What's included in this service?

Our team will develop a unique content strategy and publish four posts a month on your behalf on your Google My Business profile. We'll include an image for each post and they can also have a call-to-action button with a link, like "Book Now", "Read More", and other options. You'll also get a monthly content call with a marketing strategist to refine your content strategy.

How does it benefit your business?

Promote best deals, upcoming events, and new products on your Google My Business profile. You can attract more online customers by giving the information they need even before they check out your website.
