Medicare Plans Explained

Medicare Supplements/Medigap

Medicare Supplements plans, also known as Medigap plans, work with Original Medicare to cover the out-of-pocket costs associated with Parts A and B.

We were at a loss in determining if there was a supplement plan available to us because of our disabilities and age (under 65). You were recommended by a friend which certainly was beneficial for us. Your knowledge of the different options available was certainly a time saver and more importantly reduced our stress level. Since our initial meeting we have called numerous times and you have always responded quickly and always with helpful information.

-Pat and Joe, Schaumburg IL
