Vyond: About me script
1. Title scene (hello and welcome)
Hello and welcome. I'm Melissa Rickli.

2. Scene 2 (title scene explained)
I am super excited to introduce myself as an innovative, challenge seeking, self-starting instructional designer and eLearning developer.

3. Scene 3 (specialities)
I specialize in designing and developing meaningful, engaging, visually stimulating, and interactive content for adult learners.

4. Scene 4 (what I specialize in)
As a life-long learner, I have attended countless training sessions that have been both core memories and epic failures. As an educator and executive functioning coach, and an instructional designer, I have developed and delivered balance in delivering content and supporting skill sets using a variety of technological methods to enhance learning while engaging learners.

5. Scene 5 (some programs I use)
I am well versed in using tools that are well known throughout this industry including Articulate Storyline 360 and Articulate Rise 360.
I follow industry approved methods such as Addie, SAM and the iterative design process based on learner analyses and informative, collaborative meetings with subject matter experts and stakeholders.

6. Scene 6 (enhanced learning)
I love enhancing learning using a variety of tools including Canva, Camtasia, and Vyond. As a life-long learner, I am always discovering new ways to network and gain knowledge to keep learner engagement strong as I design and develop.

7. Scene 7 (enhancing learning)
Scenario-based learning and a variety of built-in gaming and interactive components throughout are how I deliver learning that is engaging and memorable for all types of learners.

8. Scene 8 (details)
Details are everything when it comes to bringing learning to life.

9. Scene 9 (portfolio)
You'll see the design process broken down in my design documents, storyboards, scripts, job aids, and in the eLearning courses I create through a variety of eLearning modules and deliverables.

10. Scene 10 (collaboration & communication)

I am all about collaboration and communication. Together, we can work toward designing and developing a successful world of engaging learning and development. Join me in working to create positive, memorable learning changes in the workplace.

11. Scene 11 (closing & website)

You can review my portfolio to see some examples of my work at www.MelissaRickli.com. You will also find more details about me, my skills, and how you can contact me directly.

I'm looking forward to hearing from you. Thanks for watching!
