## ASWC-1 STEERING WHEEL CONTROL INTERFACE

SALES 800-221-0932

### PRODUCT OVERVIEW

Imagine installing a steering wheel control interface and it would automatically know what vehicle it's in, what radio it's hooked up to and preset the controls for you...HOW MUCH TIME WOULD THAT SAVE YOU? Now imagine that you only need one interface for every vehicle out there including Chrysler/Dodge/Jeep vehicles with the CAN Data System. The ASWC-1 can decipher the data commands without having to purchase any other interfaces! And just think, that same interface works with the top radio manufacturers like Pioneer, JVC, Kenwood, Alpine, Eclipse, Sony and more - the ASWC-1 can do it!

- One interface does it all - No additional interfaces needed
- Designed to be compatible with all major radio brands
- Auto detects<sup>(1)</sup> vehicle type, radio connection, and presets controls
- Ability to dual assign steering wheel control buttons
- Can be manually programmed for most vehicles
- Memory retains settings even after battery disconnection or interface removal
- Provides Speed Dependent Volume Control on select CAN data vehicles
- Most connections done at the radio location
- Micro "B" USB updatable

(1) U.S. Patent No.8257147
