## KIT ASSEMBLY

### ISO DIN radio provision with pocket

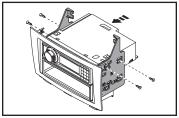

- Attach the radio brackets to the radio housing using (4) of the Phillips screws provided. (Figure A)
- Attach the pocket to the radio brackets using (4) of the Phillips screws provided. (Figure B)
- **3.** Slide the radio into the radio housing assembly, then secure it using the screws supplied with the radio. (Figure C)
- 4. Locate the factory wiring harness and antenna connector in the dash, and complete all necessary connections to the radio. Metra recommends using the proper mating adapter from Metra and/ or AXXESS. Re-connect the negative battery terminal and test the radio for proper operation.
- **5.** Slide the radio assembly into the dash, then secure using the factory screws.
- Reassemble the dash in reverse order of disassembly.
