Feel Good Marketplace

Stubben Edge Group build localised online marketplaces for companies that want to reward and retain their existing clients, generate new clients and support businesses from within their local communities.

As an online business we're fortunate that for the moment we're able to continue operating. Whilst we know that a Loyalty Platform isn't a necessity, we believe that that for many MGAs it can provide an uplifting way to connect and engage with brokers and policyholders alike, at this difficult time.

Brand Partners

We are fortunate enough to work with some pretty incredible brands such as Pasta Evangelists, and Gusto many of which have pledged to give back to the community, by donating parts of their profits to Age UK and National Emergencies Trust Coronavirus Appeal.

MGAA members

We have been working in conjunction with the MGAA and have agreed as an exclusive deal that for all MGAA members we would like to provide the platform to MGAs to offer out to their brokers and ultimately their policyholders for free for the first three months. The platform can be fully customised, with virtually no IT integration.

On a final note

In our digital world it's hard to escape the current situation and sometimes that can feel quite overwhelming and we need a distraction from being stuck at home. As a result we have pre-loaded the platform with content and uplifting communication that we hope will make you (and your favourite people) smile.

To book a demo of the platform please contact Tom Cruz at tomc@stubbenedge.com
