<b>Notes:</b>						
	1. For FY17, Total Debt Service includes only one interest payment (instead of two for a full year) and does not include a principal payment, causing the debt service coverage ratio to calculate relatively high. Further, the interest value for debt service in in the audited statement is \$391,649, higher than the amount actually paid (\$330,133) because of accrual accounting used in the audited statement.
