

OPERATING AND CAPITAL BUDGET FISCAL YEAR 2014-2015

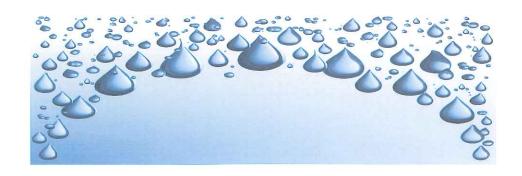

Serving the community since 1929

OPERATING AND CAPITAL BUDGET FISCAL YEAR 2014-2015

Board of Directors

Louis J. Vella – President
Betty L. Linvill – Vice President
Al Stuebing – Director
Matthew P. Zucca – Director
David P. Warden – Director

Management

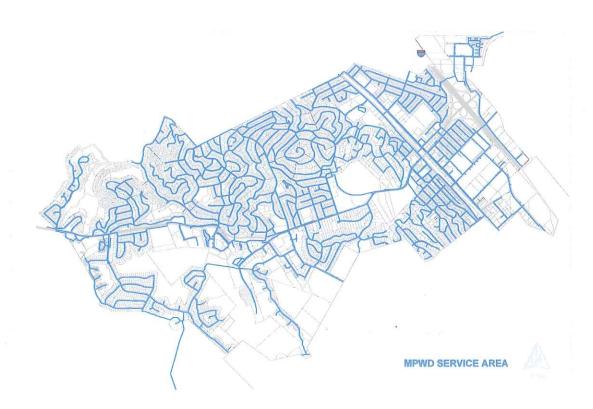

Tammy A. Rudock – General Manager Candy R. Pina – Administrative Service Manager/Board Secretary Henry L. Young – Maintenance Superintendent

ABOUT MID-PENINSULA WATER DISTRICT

The Mid-Peninsula Water District (MPWD), formerly Belmont County Water District, was formed as a California special district in 1929 from seven (7) independent water distribution systems (including the Spring Valley Water Company), which were united and began functioning as a public utility in 1930. Since its inception, the MPWD has been served by the San Francisco Regional Water System and purchased its entire water supply from San Francisco Water, a service of the San Francisco Public Utilities Commission (SFPUC). Reference www.sfwater.org.

The MPWD now supplies water to consumers in an area slightly larger than the city limits of Belmont. Small portions of the service area are within the city limits of San Carlos, Redwood City, and parts of the unincorporated County of San Mateo. The MPWD's service territory covers approximately five (5) square miles and serves approximately 30,000 people. In the event of an emergency the MPWD can serve or be served with inter-ties between neighboring utilities. Presently, the MPWD has one (1) inter-tie with Foster City, two (2) with San Carlos, one (1) with Redwood City and three (3) with San Mateo. The MPWD service area map is reflected below.

The MPWD is a member of the Bay Area Water Supply and Conservation Agency (BAWSCA), which represents the interests of 26 cities and water districts, and two private utilities that purchase water wholesale from the SFPUC. For complete information about BAWSCA: www.bawsca.org.

GOVERNANCE

Policy development and rates for service are established by five (5) Directors, elected by MPWD ratepayers to serve staggered four-year terms on its governing board.

Officers of the MPWD include the General Manager, District Secretary, District Counsel, District Engineer and District Treasurer.

ORGANIZATIONAL STRUCTURE

The General Manager is appointed by and reports directly to the Board of Directors. Along with the General Manger, the Administrative Services Manager and the Maintenance Superintendent oversee the day-to-day operations of the MPWD.

The Administrative Services Manager serves as the District Secretary and leads the following operations: Administration, Finance and Accounting, Human Resources, and Customer Services. The Maintenance Superintendent leads the water system operations and capital project management.

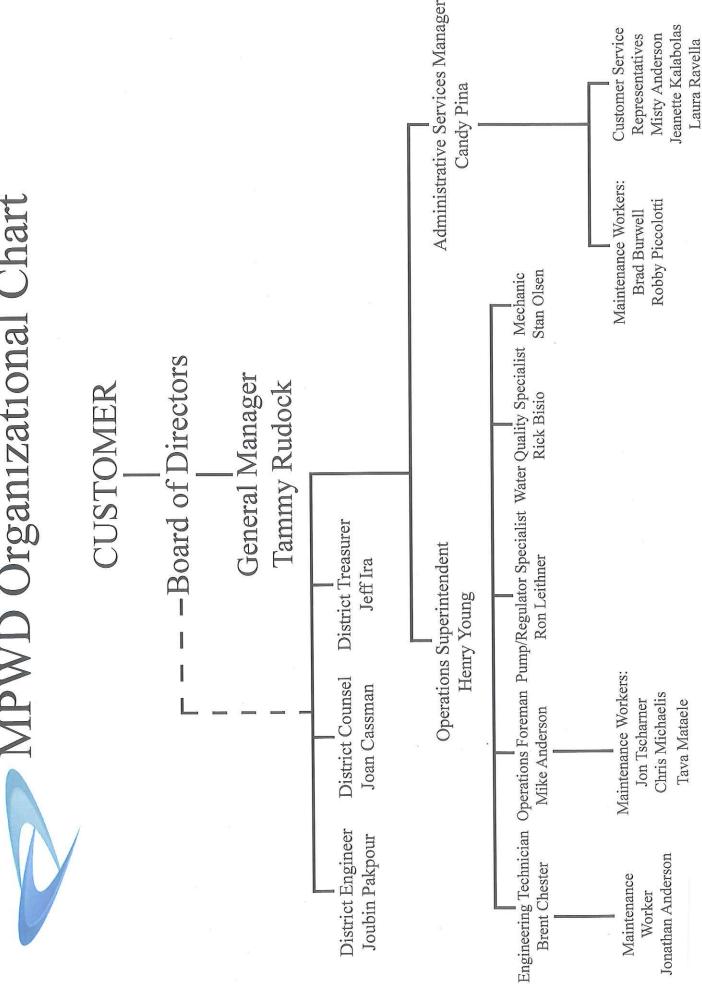

There are a total of 17 employees within the MPWD.

The Operations staff totals ten (10) employees, including the Superintendent, professional Water Distribution and Water Treatment Operators, Engineering Technician, Water Quality Coordinator, Foreman, Pumps/Regulator Specialist, and Mechanic.

The Administrative and Customer Services staff totals six (6) employees, including the Administrative Services Manager, Customer Service Representatives, a professional Water Distribution Operator/Meter Reader, and a field Customer Service Technician.

Reference the current organizational chart on the next page.

MPWD Organizational Chart

The MPWD Mission Statement, Vision Statement, and Strategic Goals are reviewed annually in January by the Board of Directors, together with the development of annual Strategic Plan and Board assignments.

MPWD MISSION STATEMENT

The mission of the MPWD is to deliver a safe, high quality, reliable supply of water for current and future generations in a cost effective, environmentally sensitive and efficient manner.

MPWD VISION STATEMENT

The MPWD will strive to be recognized by its customers, the community it serves, and other agencies for its outstanding service and enlightened water conservation programs. We will employ innovative approaches to water and energy sustainability to achieve cutting edge environmental efficiency and a competitive rate structure. We will commit ourselves to provide community information and water education.

MPWD STRATEGIC GOALS

- 1. To effectively manage the water resources, demands, and infrastructure for the MPWD.
- 2. To operate the MPWD at the highest level of service to customers at the lowest expense.
- 3. To develop an environment that fosters open and candid communications with the community, customers, staff, and directors.
- 4. To keep current with water issues and industry best management standards.

For further information about the MPWD: www.midpeninsulawater.org.

MPWD BUDGET PROCESS

BUDGET ADMINISTRATION

The MPWD operates on a July 1st to June 30th fiscal year. Each fiscal year, two (2) budgets are developed, an Operating Budget and a Capital Budget.

The Board of Directors begins the budget development process in February or March of each year for a June adoption. The budget documents are discussed during regular Board meetings each month from February through June. Public comment is welcome.

The Operating Budget includes the revenues and expenditures for the day-to-day operations of the MPWD. The Capital Budget includes the capital infrastructure and system projects and outlays.

A mid-year budget review is typically scheduled each year. This process allows for an updated report on the previous 6-month operational and capital activities, and revenue collections and expenditures. Any proposed budgetary adjustments for the remainder of the fiscal year are also considered at this time.

The MPWD's budget format was significantly improved in Fiscal Year (FY) 2012/2013. The Board of Directors and staff wanted a high level of transparency and more user friendly budget documents. A line-by-line operating budget accounting for MPWD revenue and expenditure account items was developed. A capital budget was enhanced to present not only the proposed projects and outlay items but also the revenue sources for them.

Budget documents are posted at the MPWD's website: www.midpeninsulawater.org.

"PAY AS YOU GO" CAPITAL IMPROVEMENTS

The MPWD operates on a "pay as you go" basis and thereby avoids incurring debt for capital improvements or drastic rate increases to fund capital improvements. Because the MPWD has established rates to include capital improvement expenditures, the MPWD has no outstanding debt.

MPWD TIERED RATE STRUCTURE

In May 2010, following completion of a comprehensive water rate study, the MPWD approved new water rates for FYs 2010 through 2014 that provide for a phased approach to raising rates to keep pace with increasing wholesale water and operational costs. The tiered rate model also encourages conservation by increasing unit rates for higher consumption.

The MPWD relies solely on water from the SFPUC, which is in process of completing a \$4.8 billion seismic Water System Improvement Program in 2019 on the Hetch Hetchy regional distribution system. Costs for the capital improvements are passed on through wholesale water prices and the MPWD water rates must be adjusted accordingly. Other

factors affecting water rates include conservation impacts and cost of MPWD operations.

A Water Sales Analysis is attached to the end of this budget document for information, as is the current year MPWD Rates Notice.

The MPWD engages in an array of water conservation programs including Lawn-Be-Gone, HET (High Energy Toilet), and High Efficiency Clothes Washing Machine rebate programs, school conservation programs, and landscape audit programs. More information is available about these programs at the MPWD's website: www.midpeninsualawater.org.

REVIEW OF FY 2014/2015 OPERATING BUDGET

BUDGET CATEGORY	PROPOSED FY 2014/2015 BUDGET	PROJECTED FY 2013/2014 BUDGET	ACTUAL FY 2012/2013
Total Operating Revenues	\$11,259,400	\$10,430,400	\$9,875,688
Total Operating Expenditures	\$10,153,800	\$ 9,400,454	\$8,926,086
Net Transfer To Capital	\$ 1,105,600	\$ 1,029,946	\$ 949,602

Significant FY 2014/2015 fiscal impacts:

- Total Operating Revenues are projected to increase by 8%, mostly due to the proposed 9% water rate increase.
- Total Operating Expenditures are projected also to increase by 8%, largely due to the increased cost of purchased water. (*Note: In order to contain expenditures and stabilize rates, items that were not budgeted included: Rates Stabilization, Working Capital Reserves, or Emergency Reserves.*)
- The Net Transfer to Capital is projected to increase by 7%.

The following table reflects significant variances when the PROPOSED FY 2014/2015 MPWD Operating Budget is compared with the PROJECTED FY 2013/2014 MPWD Operating Budget:

ACCOUNT NUMBER	ACCOUNT DESCRIPTION	PROPOSED BUDGET	EXPLANATION
4010	Water Charges	\$8.6 million	Increased by \$711,000. Included 9% rate adjustment, effective 7/1/14.
4020	Service Fees	\$2 million	Increased by \$171,000. Included 9% rate adjustment, effective 7/1/14.
4203	New Construction Revenue	\$50,000	Estimated. Variable to market and economy. (Compared to \$90,000 projected for FY 2013/2014.)

4206	Miscellaneous Revenue	\$20,000	Estimated. (FY 2013/2014 projection\$40,000less the
			proceeds received from the sale of an MPWD vehicle \$20,000.)
6011	Salaries & Wages	\$1.3 million	Increased by \$65,000. Included 5% increase for potential equity adjustments and merit increases.
6050	Employee Service Recognition	\$5,100	No change from FY 2013/2014. Annual employee appreciation dinner (\$3,000) budgeted in this line item.
6052	Uniforms	\$24,000	Increased by \$6,000. Included Customer Service staff per policy.
6053	PARS OPEB Expense	\$80,000	Rounded from \$75,900. Actuarial report 5.9% ROI.
6101	SFPUC Treated Water & Service Charges	\$4.3 million	Increased by \$900,000. Averaged last three years demand and added partial PAMF demand. Included 19.6% SFPUC water rate increase.
6102	BAWSCA Debt Service Surcharges	\$500,000	No change from FY 2013/2014. Debt service payment for MPWD's share of refinancing SFPUC infrastructure improvements.
6103	Rates Stabilization	\$0	Eliminated in order to contain expenditures and stabilize rates in FY 2014/2015.
6300	Outreach & Education	\$60,000	Increased by \$4,500. Drought outreach and messaging, and increased community conservation outreach and participation.
6602	Leak Detection Survey	\$0	Survey conducted every two years. Completed in FY 2013/2014.
6804	Env Health – Cross Connection Inspection	\$30,000	Increased annual inspection
7101	Prof Serv – District Counsel	\$100,000	Rounded. \$1,000 less than FY 2013/2014 projection.
7102	Prof Serv – District Engineer	\$80,000	Reduced by \$17,000. Completed Construction Specifications and Standards in FY 2013/2014. Included monthly meeting retainer and

		e a	projected miscellaneous engineering expenditures, including completion of Hydraulic Water Model calibration and 5-Year CIP.
7105	Prof Serv – Mgt Consulting	\$10,000	Estimated management support consulting expenses.
7110	Prof Serv – Miscellaneous	\$178,000	Increased by \$121,000. Projected professional services expenditures for a new financial management system (\$65,000), comprehensive rates study (\$45,000), connection and capacity charges and miscellaneous fees review and update (\$25,000); and public relations/outreach services, including completion of MPWD website redesign (\$43,000).
7203	Elections	\$0	None projected in FY 2014/2015.
8001	Working Capital Reserves	\$0	Eliminated in order to contain expenditures and stabilize rates in FY 2014/2015.
8002	Emergency Reserves	\$0	Eliminated in order to contain expenditures and stabilize rates in FY 2014/2015.

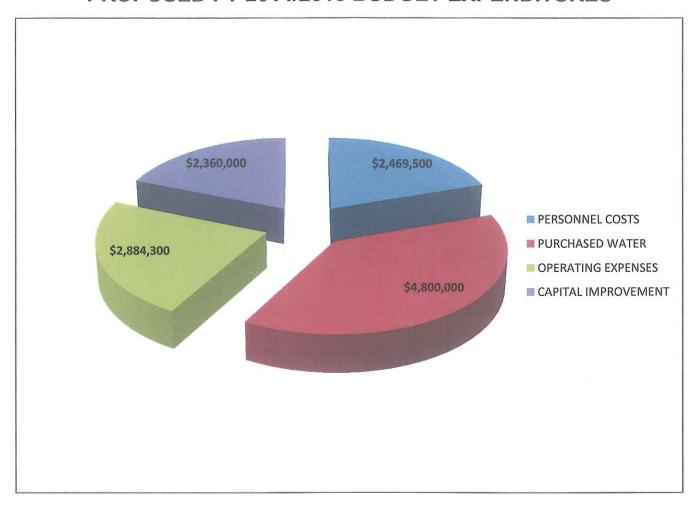

REVIEW OF FY 2014/2015 CAPITAL BUDGET

The total proposed Capital Budget is \$2,360,000, and continues on a "pay as you go" financing program. Projected available funds total \$1,975,600 (Depreciation \$870,000 plus Transfer from Operations \$1,105,600). A transfer from Capital Reserves totaling \$384,400 is projected to cover the potential shortfall.

The FY 2014/2015 Capital Budget includes.

- Completion of construction of the replacement Buckland Tanks in the first half of FY 2014/2015 - \$1.2 million.
- Continued Meter Change-Out Program to include one-half of Zone 1 (approximately 400 meters) - \$400,000.
- Replacement of the Belburn Water Main \$600,000
- Phase 1 replacement of the SCADA system (4 sites with radios) \$160,000

NOTICE OF INCREASE IN WATER RATES

Since 1929, the Mid-Peninsula Water District (MPWD) has been reliably delivering high quality Hetch Hetchy drinking water to the communities of Belmont, San Carlos, and unincorporated areas of San Mateo County. We sincerely appreciate the opportunity to serve you.

The MPWD is a self-supporting agency, relying primarily on revenues from water charges and service fees to fund its operations. While we understand that rate increases may present financial challenges for some consumers, we hope the following information provides clarification why the MPWD needs the 9% water service rate adjustment that goes into effect July 1, 2014.

BACKGROUND ON APPROVED MPWD 5-YEAR RATE PLAN

Following a formal notice and Proposition 218 majority protest hearing process on May 27, 2010, the MPWD Board of Directors approved a series of up to 9% annual water rate adjustments over a 5-year period (July 1, 2010, through June 30, 2014).

UPDATE ON REGIONAL WATER SUPPLY SYSTEM IMPROVEMENT PROGRAM

The MPWD relies on imported treated water from the San Francisco Public Utility Commission (SFPUC) for 100% of its water supply. The SFPUC is undertaking a \$4.8 billion Water Supply Improvement Program (WSIP) for much needed capital replacement and rehabilitation of the almost 100-year-old Hetch Hetchy water supply system. This multi-year capital improvements program will meet water quality requirements, and ensure the reliability, capacity and seismic safety of the aging Hetch Hetchy water infrastructure system in an environmentally sustainable and cost-effective manner. May 2019 is the anticipated completion of the WSIP.

The MPWD and 25 other regional water agencies that purchase water from the SFPUC share in the non-San Francisco portion of the cost of funding the WSIP through increased wholesale water rates. For more detailed information, please review the recent SFPUC WSIP Regional Projects Quarterly Report (3rd Quarter of FY 2013/2014) for a summary of the program's regional projects at http://sfwater.org/modules/showdocument.aspx?documentid=5368.

WHY ARE WATER SERVICE RATES BEING INCREASED?

The SFPUC will impose a wholesale water rate increase of 19.6% effective July 1st. That means the charge for wholesale customers, like the MPWD, will be increased from \$2.45 CCF to \$2.93 CCF. Financing costs for the SFPUC WSIP are the cause for its wholesale rate increase in Fiscal Year (FY) 2014/2015.

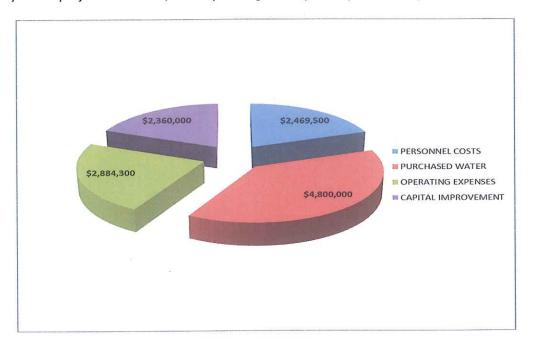

The cost to pass-through the 19.6% SFPUC wholesale rate increase to the MPWD ratepayers exceeds the 9% rate increase that will go into effect on July 1st. Nevertheless, the MPWD is committed to meet the challenge of covering all MPWD operating expenditures within the projected revenue base from the 9% water rate increase. With prudent budget management, that goal is achievable. The MPWD scrutinized its operating expenses on a line-by-line basis, making reductions or even eliminations wherever possible. Accounting for inflation and various increased costs of doing business, the MPWD was able to hold the overall increase in its operating budget to 5%. In addition, the MPWD anticipates that capital expenditures next fiscal year can be managed with cash from operations plus a projected \$384,000 transfer from capital reserves.

MPWD'S CONTINUED FOCUS ON COST-EFFICIENCY AND PRUDENT FINANCIAL MANAGEMENT

Through diligent budgeting, financial management, and cost controls, the MPWD is committed to providing cost-efficient high-quality services. Effective measures and practices that have been implemented to achieve these ends include:

- Reinvestment in MPWD capital infrastructure for system replacement, rehabilitation, and proactive maintenance (equal to capital service charge revenues collected from each ratepayer).
- Responsible management of capital, emergency, and working reserves according to the MPWD's reserve policy.
- Creative and more sustainable use of resources in the provision of services.
- Assumption of new and additional requirements to assure best practices and enhance transparency without increasing the MPWD workforce.

Here is a summary of the projected FY 2014/2015 operating and capital expenditures (\$12.5 million total):

PROPOSED FISCAL YEAR 2014/2015 MPWD CAPITAL IMPROVEMENTS

Capital improvements are important investments into the MPWD water distribution and storage infrastructure system. Our aging system and equipment require managed maintenance, rehabilitation, and replacement. Capital expenses have traditionally been "pay as you go", meaning the MPWD pays cash for its capital expenses and has no accumulated debt. Proposed capital expenditures for next year include:

- Completion of replacement Buckland water storage tanks construction \$1.2 million
- Belburn Drive water main replacement (Academy Avenue to Notre Dame Avenue) \$600,000
- Automated meter change-out program (next phase) \$400,000
- SCADA systems replacement Phase 1 \$160,000

The MPWD has typically spent about \$1 million each year on capital projects. It is higher next year (\$2.3 million) because the Buckland tanks replacement project is on schedule for completion in November 2014. Many of the MPWD's underground water distribution pipelines are over 50 years old and have reached or exceeded their expected useful lives (like Belburn Drive), which require us to focus on a responsible replacement program. The automated meter change-out program is continuing to replace 30+ years old water meters; so far, 1,800 meters have been replaced. Additionally, our critical water system communication and control program—SCADA (Supervisory Control and Data Acquisition)—has surpassed its useful life and is planned for phased replacement. Progress photos of the Buckland Tanks replacement project are shown below.

Buckland Tanks Replacement Project - Phase I Mid-Peninsula Water District, Belmont, CA April 14, 2014 through May 9, 2014

April 17, 2014 - Tank Shell Torch Cutting

April 17, 2014 - Tank Shell Panel Removal and Disposal

April 18, 2014 - South Tank Shell Demolition Completed

May 9, 2014 - South Tank Concrete Beam Pour

UPDATE ON MPWD CAPITAL, EMERGENCY, AND WORKING CAPITAL RESERVES

The MPWD Reserve Policy Statement, approved on December 13, 2007 (per Resolution 2007-13), established the following levels for our reserves, which provide security for future unexpected operational and capital infrastructure emergencies:

 Capital Reserve
 \$ 2,500,000

 Emergency Reserve
 \$ 2,000,000

 Working Capital Reserve
 \$ 500,000

 TOTAL
 \$ 5,000,000

MPWD reserves balance in the Local Agency Investment Fund was \$4.6 million on April 30, 2014.

MPWD WATER RATES

The table below shows the 5-year schedule of water rates that was presented to MPWD customers in 2010 and approved by the MPWD Board of Directors. The rates that will be effective July 1, 2014 are highlighted in yellow. Water bills include both a fixed monthly charge based on meter size, plus a water consumption charge based on each

customer's metered water use. The fixed monthly charge represents a flat rate charged to each customer for water delivery to your house or business service line, and is based upon the size of water meter.

	Proposed Water Rates Effective for Bills sent as of July 1									
		2010	2011	2012	2013	2014

*One unit	t of water = one hundred	cubic feet (CCF)	or 748 gallons	10						

WHAT WILL THE 9% WATER RATE INCREASE LOOK LIKE?

As a result of the rate increase effective on July 1, 2014, a typical single family water bill will be approximately \$6.50 higher per month.

CURRENT DROUGHT CONDITIONS AND POTENTIAL MANDATORY WATER RATIONING

The SFPUC is currently considering whether to impose mandatory water consumption cutbacks on the MPWD and all other agencies that purchase water from the SFPUC. If such a decision is made, the MPWD will need to analyze the financial effects of such mandatory rationing on operations.
