

2021 Junior Livestock Exhibitor Code of Conduct & Parent Code of Conduct

This Code of Conduct which is made part of the Livestock Competition Handbook was developed by the 16th District Agricultural Association (DAA), who operates under the auspices of the California Department of Food and Agriculture, Marketing Division and Branch of Fairs and Expositions, for the primary purpose of producing the annual California Mid-State Fair. The Code of Conduct is further enhanced with additional rules and regulations, including the State Rules.

Any assistance must come *ONLY* from another junior livestock exhibitor who is qualified to exhibit an animal at the 2021 California Mid-State Fair, identified by a wristband issued by the Fair. Parent or adult assistance is not allowed. Adult verbal assistance is allowed. The Fair's designated Livestock Species Superintendent will oversee barns, and all enforce rules. See competition handbook for more information.

The exhibitor is to be removed from the grounds immediately and lose the opportunity to show and sell his or her animal(s) through the Junior Livestock Auction or Replacement Heifer Sale. Health or Safety issues include, but are not limited to, the actions involving weapons, alcohol, illegal drugs, or fireworks, as mentioned in items #4-6 above, and not caring for, i.e. feeding and watering, the exhibitor's animal project.

Policies for Animal Treatment

1. Any effort to artificially change the conformation or appearance of an animal by treating the animal, internally or externally, with any irritant, counter-irritant, or other substance is considered unethical, inhumane, and is prohibited. Treatments that are prohibited include, but are not limited to, the use of artificial hair coloring (sprays, etc.) excessive use of common products such as fly spray, ointments or liniments or other similar products. Excessive use is defined as the use of a substance to the point that it irritates the animal. For reference livestock can be fit with livestock show supply spray paint from the knees and hocks down. Cattle may have livestock show supply spray paint applied to tail heads, tails and tail switches.
2. Adding false hair or hair-like material, fleece or skin to any portion of the animal's body is not allowed and will result in immediate disqualification. Causing the animal to ingest any liquid or substance not considered part of an accepted and normal livestock diet, or in quantities not considered normal for livestock, is deemed illegal and inhumane. For example: the use of alcoholic or carbonated beverages as a drench or filler.
3. The use of tranquilizers, sedatives, or depressants, which alter the physical or physiological state of the animal, is not allowed. Exceptions to this rule would be a California Licensed Certified Veterinarian's treatment for recognized disease or injury, or recommendation for tranquilizing breeding animals in heat that might compromise the safety of others. The Livestock Office must receive notification from the Licensed Certified Veterinarian of the details of any such prescribed treatment in writing. The substance used in this treatment must have been approved by The Food and Drug Administration for use in meat producing animals.
4. It is the responsibility of the exhibitor to feed, water and care for any animal they have entered in the Fair throughout the entire fair, including any period following the sale of the animal prior to the end of the Fair. All

market animals must be given a final watering approximately 5 p.m. on Sunday August 2, 2020 to ensure that the animal arrives in a healthy condition at the harvesting plant. Exhibitors are responsible for the care of their animals until they are loaded on the truck for transport to designated harvest facilities.

5. Any animal that appears ill or injured while at the Fairgrounds must be reported to the livestock office. A veterinarian must check any animal considered unhealthy. If it is determined that the animal is carrying a communicable disease, the animal will be removed from the Fairgrounds. The Fairgrounds will not assume the cost for this action. The exhibitor must assume the full expense of the veterinarian's services. Exhibitors must review the Fair's Biosecurity Protocol document(s).
6. Any animal that is determined to be unmanageable, or could be a safety hazard to the public, will be removed from the Fairgrounds. The Livestock Superintendent/Fair Management makes this decision final.
7. It is considered abuse to excessively shrink or excessively exercise an animal.
8. Other than to reduce higher than normal body temperature of an animal that is overheated ice is not to be applied to the body of an animal. Ice in a bucket of water is permitted. No cooling devices, electrical stimulation tools or shockers may be used. Ice used to cool down the Body temperature of a Hog is acceptable.
9. Physical abuse of an animal will not be tolerated. For example: when moving hogs, care should be taken not to excessively beat or hit an animal (either by a person or with an object).
10. For the safety of the animal and the public, animals are not to be left unattended on fitting tables or in blocking chutes.
11. All lambs and goats must be shown with their front feet on the ground as practiced by acceptable showmanship procedures. If this policy is not followed, the judge may ask the exhibitor to leave the ring or may place the exhibitor at the bottom of the class.
12. Upon arrival at the fair, or any time during the fair or on arrival times, a certified veterinarian will check animals for any infectious disease, open sores, abscesses, injury, parasites or any unhealthy condition. Those animals determined to have an infectious disease will be asked to immediately leave the fairgrounds. For example: animals found to have live active Ringworm or active Sore Mouth will be asked to leave the fairgrounds, It is strongly suggested that the health of each animal be evaluated prior to coming to the Fair. The Fair Association is not responsible for any costs associated with the transfer or care of these animals.
13. Exhibitors should remember that the cost of the junior livestock programs are offset in part by the general public, therefore the livestock area needs to be presentable at all times. All Livestock stalls/pens must be cleaned out daily before 9:00 a.m. and exhibitors should make every effort to keep the barns clean at all time for the public.
14. Exhibitors shall be responsible for security of their animals in stalls or pens. All beef cattle and dairy cattle shall be securely tied with a neck rope in addition to a suitable halter. All sheep, goat, and swine pens shall be securely closed and fastened before the exhibitor leaves the barn area. Please do not put padlocks on any gates or pens.
15. Blocking chutes must stay in designated areas and be kept clean. Each blocking chute must have an official identification band issued by the Livestock Office. For cattle, there will be a fee of \$20.00 per blocking chute and a limit of one (1) blocking chute for every three (3) head of cattle maximum. Blocking chutes without official identification bands will be removed from the fairgrounds.
