DESCRIPTION

The RGB & CCT LED Strip is a highly versatile lighting solution that can change the mood of any space. With a power output of 30 W/m, this LED strip delivers bright and vibrant color changes. The strip features IP20 protection, making it suitable for indoor use. The 24V power supply allows for energy-efficient operation and the RGB + CCT technology provides a wide range of color options, allowing you to choose the perfect hue for your space. The strip has a total of 96 LEDs per metre, providing consistent and even lighting. With 5 metres of length, you can easily install this LED strip in a variety of settings. With a high color rendering index (CRI) of over 92, the RGB & CCT LED Strip provides accurate and natural color representation.
