### DESCRIPTION

This Single Colour LED Strip is designed for long, uninterrupted lighting runs. With a width of just 5 W/m, this strip is both energy efficient and flexible, making it ideal for a variety of lighting applications. With an IP65 rating, it is also well-protected against dust and water damage, making it suitable for use in both indoor and outdoor environments. The strip emits a warm and inviting light with a color temperature of 4000K, depending on your preference. With 60 high-quality LEDs per metre and a Color Rendering Index (CRI) of 92, this LED strip provides a consistent, natural-looking light that accurately represents the colors of the objects it illuminates. With a length of 25 metres, this strip is perfect for large-scale projects where long, continuous runs of light are required.
