Find Out About...

IT'S AN UGLY JOB... but it

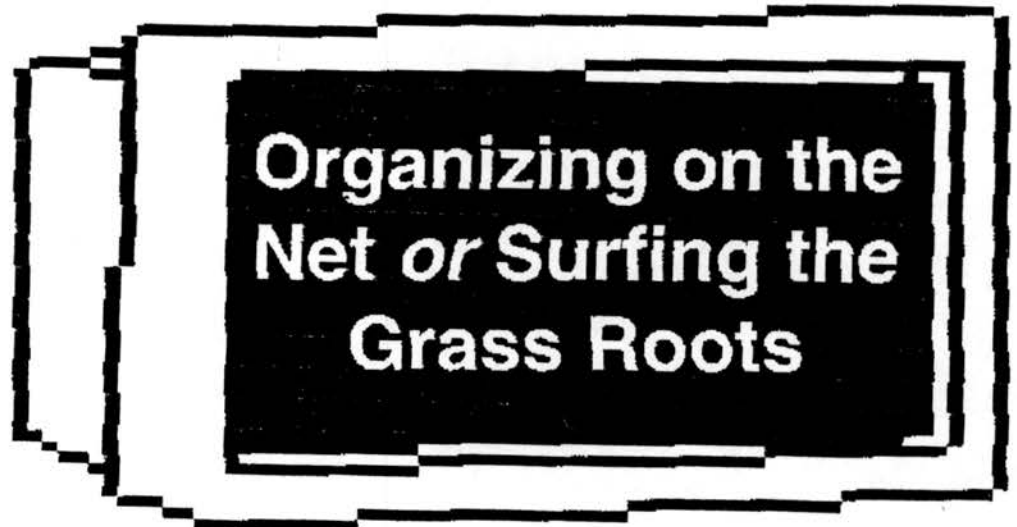

has to be done. Calls for cut-backs ring from Washington to even Minnesota's amber waves of grain. This year's state study will help Leaguers understand where the money goes now what the 'real' issues are and what changes are possible.

A professor from the University will help set the framework with an unbiased view of spending.

A speaker from the State Planning Office will discuss "Living Within Our Means."

A Member of the League Committee will let you know what to expect and when.

The Internet is the community of cyberspace and the League plans to be there too. Discover the internet, the Worldwide Web and home pages. Learn how communities can form — and be informed there.

Enjoy this real hands-on workshop!
