Dear Sir,

You are a miserable  
dissappointment. Are you  
now under the control  
of the international bankers?  
It looks that way.

you are evidently a  
second Truman.

Faith is our only hope  
Forget your own selfish  
interests and work for the  
good of a United States of  
America only.

Get our boys out of  
Korea. It is murder! Keep

our bays out of Europe.  
Show yourself a true  
American. Not a selfish,  
stassen for stassen idiot.  
Your speeches reek of  
self interest.

Sincerely

James Monroe

We'll fight on U. S. soil  
for America, but no where  
else. Experience of the last  
two wars has taught any man  
who thinks a grave lesson.  
We'll not have our 18, 19 & 20  
year olds cannon fodder  
in our pollyanna movements.

Dear Sir

Jan. 5 speech

You need not be

Croaker Revolution in Russia as  
reported in the 'Bulletin' of Jan. 16.<sup>th</sup>  
is good. — you think & are not  
afraid to talk. Russia has to be  
beaten; — but will not fight till  
she has to. & sometimes Russian tactics  
must be copied & Russia now fought  
as she is fighting us. — i.e. — your  
Croaker Revolution must be backed by  
guerrillas — armed & armed in  
the U.S. (& supplies dropped to Revolu-  
tionists in Russia)

I have read there are too  
many people in the world, &  
while I would not agree to throw off hands  
yet Russia, believe she can win (as  
v. Germany) with her masses of America.

Therefore, a weapon<sup>2</sup> or weapons  
must be invented to kill these  
Russians by the Thousand, at  
one time.

Nothing is impossible — what is  
possible. Aerial mortars or  
machines must be invented that can  
be parked ahead & discharged that  
will spray & kill thousands. It  
can be done. There could be  
parked forward, discharged &  
withdrawn for reloading.

Some means must be invented  
to track these Russian Soldiers of  
wholesale. ( & it can be done )

Melancthon advocates the building  
up of the Navy & the airforce

also the (sub-rosa) arming of  
Greece & Japan (sub-rosa)

There has been a bullet proof  
vest invented. Why cannot  
Americans be allowed to purchase or  
be supplied with them?

1. Trip ships, I suppose

P.S. I found the change in the  
Herald-Tribune, the old reliable  
that used to publish all the news  
in a truly objective fashion (was your  
speech published in it?)

What paper is that way? Perhaps,  
"Time" or "World News" will give  
your speech space.

Please get all the information  
you can about the Communists but  
be careful -

Dear Mr. Stassen, P D C

I heard your speech last  
night and I was most interested  
I wanted to get it & study it.  
It was not in The Buffalo Eve-  
ning News today, nor did I hear any  
comments over the air. Although  
I tried hard to get some.

It was the same with Mr.  
Taft's speech before congress.  
A pretty poor one we have come to.  
Whether I agree with you or not is  
not the point, although your  
plan for the State Dept. might  
save us. The rest I am not so sure  
of - Gen. Eisenhower is of course all yours

Commie

government & elsewhere I believe  
Did you read "Seeds of Treason"  
Also where is Volger & all the  
good Americans that have  
disappeared?

How "they" use their influence  
in some indirect fashion to  
keep your speech out of this  
paper. Did you read the article  
on page 18 - of The American Legion  
Magazine for January 1957?  
Yours truly, Margaret Burnett (Mrs)

Say, but he has a chance.

Dear President Stassen -

May I offer my congratulations to you on your stand of no war against Russia. Such a war would mean, in my opinion, a national disaster unparalleled in the history of the world.

May I offer to you what seems to be the consensus on several important issues:

(over)

1. Take U.S. troops out of Korea.

We are getting in the same mud that led to Japan's downfall and Japan's operations were much less expensive.

It is ruining the civil morale of the American people for our troops to suffer from Asiatics.

Our killing of women and children and wholesale destruction of property of a chronically poor people is turning Asia against us.

2. Settle peacefully with Russia all issues.

We cannot afford to face the 75 million soldiers that Russia, China and the Satellites can put in the field. Even a victory would bankrupt us and ruin our government.

This country could maintain its essential form and be prosperous for a century even trading with Russia, China and a socialist Europe.

3. Do not draft teenagers

The measure is offensive not defensive

Respectfully J. H. Sanford

be too rational for serious quarrels or to even consider fettering the offspring in military slavery. They'd restore the process of humanization that even that tremendous liability, education admits stopped before recorded history. Of course, this writer did not want to see all this. Facts are facts, only fools ignore them. Fools, the innocent and downbeaten result of over 8,000 years of civilization. No other animal kills its young to spare self or debases his female and self. That goes to show how low we have sunk.

to muddle with the family  
next-door, with your own,  
and with the one in Korea

to be guided by this  
does not measure up, but  
confirms my observations!  
They are the result of curiosity, long  
experience, resentment of out. rage, and a  
willingness to be guided by vital facts.*

## ≈ Facts ≈

*Run these FACTS over your piano and see if they harmonize  
with your tune.*

These are facts, not opinions. Opinions are open to dispute, adding to rifts when unity is needed. Facts are not. Nature's law is immutable and not open to dispute. Man-made law in Latin and double-talk to confuse is very much open to dispute.

These facts nullify all pretense that civilization is the only and proper way to live. Man is Nature and must conform with it. Civilization was designed to flout Nature and impudently gives its man-made law precedence over Nature's law.

These facts account for the SUICIDE of all past civilizations and why suicide of ours is not a matter of whether but when.

These facts account for the obdurate and suicidal refusal of all civilized leadership to publicly discuss and agree on the cause of civilized trouble. That refusal overrides self-preservation, the first law of Nature, and is one of many factors that insure suicide of our era. These facts show that public opinion supporting civilization has always been wrong, that its leaders in ignoring the vital and ominous significance of these facts have never been intelligent. This includes all of our so-called "great men".

To properly orient ourselves and to prove the fallacy of belief in civilization, its institutions and leaders we must consider the conditions and their vital significance at the time that man assumed family form.

The earliest family must have been an independent entity, a complete society in itself. Its parents must have been supreme in its leadership, in full control of self and family. They had no one to educate or tell them anything yet they did all that is possible for parents to do. They obeyed Nature's law. They exercised the natural economy that came with them, the natural economy arranged for all earthly life by the Mysterious Power responsible for the Universe. Only irrationality resulting from an abortive civilization could ignore the vital significance of that natural economy and the ominous significance of its repudiation by civilized man.

Our earliest antecedents, like all early life, had free use of what they needed only of four elements, land, water, air and sunshine. When

civilized man argues against that free use, he is a fool. He pits his down beaten intellect against the Infinite Wisdom responsible for the Universe. He confirms these facts that indict civilization.

Due to these conditions the earliest parents had no choice but to sweat an independent living. This independence caused the seed of intellect to sprout, producing independent thought for rationality needed in living moderately. It made for self-discipline, for humility before the mighty forces of Nature, and it aided in developing the highest of human attributes, a just consideration for self and others. It aided the process of humanization, not civilization.

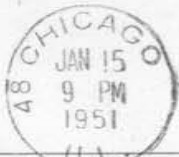

Who were and are the civilized economists, ideologists, clergy and other educators whose philosophy is such that we need to be told how to live, people that conflict in telling us how to vainly live contrary to Nature? Christ and Mahomet were two that conflicted. Our founders were others. All work their racket from the soap-box, letting dupes sweat to support them. Here we have it, the ignoble urge that inspired the abortive scheme of civilization - - - "Let suckers sweat to keep you, let the Devil get the hindmost". But the end result of that is always defeat, always social suicide! It CAN and IS happening to us, or don't you read the papers? Our founders ignored the natural economy that came with man. They carefully refrained from mentioning the family (unit of society) in all deliberations. This allowed them to ignore its independence and other natural heritages, that the family is the only group in Nature, the only medium for man's humanization. Why such an impious and deliberate omission? Because they were violating that family in their sweat-shops and slave-pens. Lawyers among them were writing laws in Latin and double-talk to keep it behind the 8 ball so all could batten off its sweat. They felt safe in centering on the individual, differing in age, sex and family relationship, for this prevents "equal treatment". Since all families could and should be treated the same, their specious scheme diverted from that.

The "soap-boxer" is not a leader. He is CARRIED, not followed as a leader to be emulated with profit must be. He usurps the leadership of parents, all of whom were destined to sweat and think the living and thus could be emulated with profit. We all have sweat-glands and minds. The significance of this has to be ignored! If we all emulated the soap-boxer we'd all starve for lack of someone to sweat. When too many DO emulate him competition among his parasitic kind results in domestic and foreign strife to destroy the moral structure. That's the end! In our Civil War he killed 600,000 of the best young broodstock to spare self and monstrous philosophy that murders to settle quarrels.

Had our avowed principles been worth honoring, Lincoln and Jeff Davis should have died for them first as a good example to the boys they killed. True leaders, parents die to preserve offspring as seed. Irrationally, we laud wholesale killers but hang the parent who kills.

The seed of society's destruction is enhanced by misuse of Nature's wheel in an economy opposed to Nature. The wheel-turned press diverts from the cause of our trouble while its senseless controversy riffs and engenders hate. The wheel-made A bomb threatens extermination! Under civilization wheel-made devices are never discarded until better ones are found for destroying mankind. All this too, is ignored. This proves the U.N. as the ultimate in futility. Leaders of nations admitted failure of self and civilization when they resorted to the U.N. Kicking themselves and warped philosophy upstairs to staff it is in itself enough to insure its failure. Civilization begins in the village where it is at its futile best. But the greed of parasites who usurp leadership of parents and who violate the family is never satisfied with this futile best. The village leader is too close to the family fettered in unnatural servitude with its thinking pretended for it to dare plaster it with oppressive debt and taxes or to incite civil war. Thus his control is at its futile best while the family has its best chance to keep him in line. Greed for more wealth, eminence or power over dupes inspires the city, county, state and nation. All add to the futility of peace and happiness. As a result the world is in a dreadful dilemma. Even this great land is far from consolidating its gains as it should if its boasts were warranted. Its suicidal policy of "letting George do it" has already destroyed one-third or three inches of its precious top soil. Ballahoo and boasts have increased the population by leaps and bounds. We do not need a Nostradamus to foresee eventual starvation when population increase meets and overlaps soil depletion. Other factors destroy society quicker but when this Ace in the hole turns up, society stays dead. The earth is dotted with barren wastes, each the site of many dead civilizations. Families have always fled abuse and attrition of civilization to live in peace and happiness. Because the primary cause of their trouble had been hidden from them they planted and nurtured that poisonous root when it caught up.

If Truman and Stalin were isolated on a desert isle they'd prove all this and more. Their families would dwell in peace and happiness under the conditions endowed the earliest of all families. Their offspring would mate to cement that accord. Each will eagerly sweat and think an independent living and thank his lucky stars for that privilege, a privilege both scorned when civilized dupes in unnatural servitude were forced to do their drudgery for them. Living naturally they'd

Mr H. Starnes

Dear Sir:

Thank you for sending your "Round the world report."

In displaying "broad facts" it ignores and fails to be guided by the most vital of facts, that all such problems have an abortive-origin and a fatal end-result, (where "civilization" always destroys itself.) Merely to try to "put-off" destruction and not try to avoid it is defeatism. Your journey need be paralleled by the medic that merely appraised the extent of Typhoid after ignoring its origin and then condemning the community to death by his folly.

You made this journey because our public-officials abroad are not to be trusted in supplying the information by mail - That is a fatal flaw in all civil government, purposely not required to qualify as to intelligence, devotion, talent and virtue! No person of intelligence could possibly accept civil government or act as a pretended servant of people who he may, and does, fetter in military-slavery and kill to preserve himself! (A weird inconsistency of which he is a servant-master, with his employees, master-slaves.)

Thus another vital-fact ignored is that this ineqnity prevails in all lands, with the degree of the out-rage, the only difference. So even tho' your report convinced every soul on earth it would merely exctenue the out-ragous ineqnity more firmly and thereby hasten social suicide.

If our own unqualified-officials banded the world, greed for more of personal-power would eventually reproduce our Civil war on a world-wide scale. Truman, a little business-failure was most apologetic when first-mantled with abortive-power as boss of the biggest-business on earth.

No doubt that Stalin, less-demonstrative, felt the same way, until bitten by that power, he too developed the Merriall-complex that so illy-befits Truman.

But this is enough on effect, for our purpose. Your report ignores that Nature started the family off with parents its very leaders ruled only <sup>by</sup> parental-devotion. Your report says in effect wrongly, that parents are not as capable as was our earliest-antecedents! If your family was isolated beyond the mob-actin of majority rule, it would prove your report wrong. You'd be wisely and prudently and peacefully ruled by parental-devotion alone, or when my family joined yours. To avoid

Strike, your parental-devotion would not let  
you meddle with my family. Thus it was  
designed to keep you at peace with every  
family on earth, proving that war is not  
only not indigenous to our species but an  
out-rageous spawn of an out-rageous way of  
living. This is another of countless vital-facts  
purposely hidden by education!

Majority-rule is mob-action in which half,  
plus one, thwarts the will of half, minus one,  
regardless of right or wrong.

Where parental-devotion forces parents to  
give first-consideration to the weakest and  
youngest, the devotionless-usurper of parental-  
functions, (put by that mob-action into the  
City Hall) gives special-privilege to the strong  
that help entrench his usurpation.

Huddlers to say this leaves little or no  
consideration for the weak! It is exemplified  
everywhere else. The laborer, without whom  
the species would starve, is even excluded  
from his own labor-union council. He must  
let the labor-slave, of opposite philosophy "rep"  
for him! Altho the "bee-line" city comes not  
do without him, he is excluded from its  
grand-jury, in on the conspiracy to dominate  
and exploit him. In that travesty called  
"United Nations" the many little nations are  
excluded from the council! The strong take  
over

special-privilege in that conspiracy of domination and exploitation. - All for lack of devotion to usurped-charges!

The devotion purposely not required in our public-officials abroad and at home!

Here is one reason that no form of Civil Government or other institution has ever, or can perpetuate itself. Their impurity has so warped-intellect that it becomes the earth's one great-menace to devour and destroy our own species and every thing else in a land!

It is significant that with out intellect, but with family-government only, bear-society never destroys itself.

But with warped-intellect to over-ride family-government and to cling to civil government etc, our society always destroys itself. (another vital-fact hidden by education)

(another reason that the most-educated steered this country into the horrible mess involving the world! The abortive and base-removal of all lands is identical labor-slavery by dominating and exploiting another seemingly-species called laboring-men, always means destruction of society. It never missed in over 8000 years and never can!

DEFEATISM! + CASUISTRY! B Herrod

I hold that the majority of the Republican Party, including a two thirds majority of the members of the Republican Party in the Congress, do not follow that view, and have never in the past ten years followed such a view.

I do not claim personally to be the spokesman for the Republican Party. I do not claim to officially represent the Republican Party. In fact under our political system in America, a political party which does not have a president in office does not have any one official spokesman.
